COCKTAIL BOOTHBY'S

American

Bartender

REVISED AND ENLARGED.

SECOND EDITION.

A TWENTIETH CENTURY ENCYCLOPEDIA
FOR ALL STUDENTS OF MIXOLOGY.

Copyright 1900. By the San Francisco News Company.

SAN FRANCISCO, CAL.:

The San Francisco News Company,
1900.

TO THE
LIQUOR DEALERS OF SAN FRANCISCO

Who unanimously assisted in my
election to the legislature by an
unprecedented majority this work
is respectfully dedicated

INTRODUCTION.

IN presenting this, my second publication to those desirous of becoming proficient in the bartender's art, I wish to thoroughly impress upon the minds of my readers that the recipes herein contained are considered standard in every sense of the word by all competent critics; therefore I willingly stake my well-earned reputation upon their practicability.

Many pamphlets heretofore written upon the theme of mixology are absolutely worthless, owing to the fact that they have been gotten up in the interest of some cheap publishing house which has paid some celebrated mixologist a royalty for the use of his name only, while some inexperienced, unprincipled individual is the real author. These so-called guides contain recipes for the mixing of beverages which no practical bartender on earth ever had occasion to serve. The only redeeming features of these decoctions are their high-sounding names, which scheming, imaginative penny-a-liners have given them in order to make large volumes out of little material.

I have neither asked nor received assistance of any description in the compilation of this book, the hints, suggestions, recipes and commandments being the fruit which my own individual tree of experience has borne. Therefore, I can challenge the world to ridicule or disprove anything herein contained.

Respectfully,

HON. WM. T. BOOTHBY,
"The Retired Champion."

The World's Drinks.

WITH the annexation of new territory by the United States, the nimble fingered dispenser of liquid refreshment finds it incumbent upon him to extend his repertoire while the devotee of Bacchus has thrust upon him newly and strangely compounded assuagers of the demon thirst. From Cuba, from Porto Rico, from the Phillipines and from the Sandwich Islands come liquid fancies—some native, some invented by residents of more extended experience, but one and all different from the cocktails, punches, flips and juleps of our native land.

First of all must be considered pimento, that fragrant stimulent with endless possibilities known so well in Cuba. A glass well filled with ice, a lime well squeezed, a dash of pimento dram, a spray of seltzer or club soda, the mixture well stirred and you have a fizz which many think better by far than one of gin or whiskey.

Molasses or brown sugar takes the place of syrup in the drinks of Porto Rico and Manila. They give a peculiar flavor much liked by the natives, but which is not always appreciated by others. In any of the recipes given gum syrup may be substituted for molasses if desired, although in some cases it is the latter which gives the distinctive flavor. A typical Porto Rico cocktail is made from a pony of Jamaica Rum, two or three dashes of molasses and one dash of pimento dram, all stirred with ice and strained into a thin glass.

Another tropical cocktail has for its base one-third part of vanilla cordial; to this are added two-thirds brandy and a dash of pimento-dram. The oil from a bit of lemon rind adds zest to the tippie, and is squeezed from the top after straining.

Rice wine is not unknown here, although in no great demand. Mulled, it is quite popular in the Phillipines where under a warm sun, its intoxicating effects are fully appreciated. A gun barrel is generally used by the natives in preparing the mulled portion; a superstition prevailing that the drink thus compounded absorbs some of the peculiarly effective fighting qualities of the gun and gives strength accordingly.

More deadly than rice wine is barley ale. Old and experienced drinkers have been brought to grief by a couple of glasses of this palatable intoxicant. It is sometimes mixed with lemon juice to deaden the effects, but for the average American the fascinating flavor is destroyed by such treatment.

Sandwich Islanders are extremely fond of cocoanut milk, but the American and English residents improve on the natural flavor by adding a liberal dash of brandy and shaking the whole with ice.

Samoans have a fermented drink made from awa root, which, however, is not popular with whites who have once experienced its effects. According to

THE WORLD'S DRINKS.

report, one glass is sufficient to put the average man under the table, while three or four glasses have been known to put seasoned drinkers to bed for a week.

A favorite cocktail in Havana is made of one-quarter curacoa, one-quarter maraschino, one-half brandy, a few drops of lemon juice, and a dash of quino bitters. The mixture is well stirred with ice and strained into thin glasses.

Curacoa and Maraschino in equal quantities is a favorite cordial. It is served alone or with a dash of quino bitters on the top. These bitters are much used in the West Indies in all drinks. They are a pleasant stimulant and excellent stomach tonic. They are made from the bark of a tree resembling cinchona.

Guirdilec is made in some parts of the Sandwich Islands. It is prepared from sugar cane. The cane is chopped into pieces an inch or so in length and placed in a trough exposed to the sun. Water is added from time to time as fermentation progresses. When this has reached the proper stage the mass is distilled over a slow fire.

To impart new sensations to a hardened palate a moderate use of mequano is recommended, but long continued use of this tippie results in the complete shattering of the nervous system.

The manufacture of Mequano is carried on principally in Honolulu. Native coffee is roasted and crushed, then mixed with an equal part by weight of molasses and water. The mass is allowed to ferment and the wine is then distilled.

For "long" drinks residents of the Phillipines have compounded two delicious beverages which vie with one another for preference in the popular taste. Both are new to Americans, although the ingredients are readily obtainable here. The foundation of one consists of cinnamon, cloves and nutmegs, with strips of orange and lemon peel, the juice of an orange and a lemon, three ponies of brandy, one of rum and a like quantity of conichuaro. These ingredients should be placed in a bowl for two hours, after which the liquor may be drawn off, iced and served.

The other "long" drink is made by taking equal parts of all the fruits available—limes, lemons, oranges, bananas, pineapples, pears, peaches, grapes, figs, raisins and berries. They are crushed together in an earthen mortar, water is added, and the whole is boiled for twenty minutes. After being allowed to cool and settle, the clear liquor is drawn off. To every quart of liquor add two ponies of brandy, one pony of curacoa, one pony of maraschino and a dash of rum, mix thoroughly, strain and bottle for future use. Serve with cracked ice.

1.

* * *

ABSINTHE COCKTAIL.

2.

(See Recipe No. 16.)

ABSINTHE FRAPPÉ OR FROZEN ABSINTHE.

3.

CALIFORNIA STYLE.

Into a medium-size mixing-glass of cracked ice pour a jigger of absinthe (if the customer desires sweetening add orgeat syrup to taste), fill the glass with water, shake until frost appears on the outside of the shaker, strain into thin cut glass and serve.

ABSINTHE FRAPPÉ OR FROZEN ABSINTHE.

4.

EASTERN STYLE.

Fill a medium-size mixing-glass with shaved ice; pour in a jigger of absinthe, shake until enough ice has dissolved to fill a small cut glass, strain and serve. No water or orgeat is used in this recipe; but, should a customer desire sweetening, a dash of orgeat may be added before shaking.

ABSINTHE PLAIN.

5.

FRENCH STYLE.

Pour a jigger of French absinthe into a thin glass; then fill an absinthe strainer (a glass or metallic vessel with a single hole in the center of the bottom) with cracked ice and water, and hold it high up over the glass containing the absinthe, allowing it to drip until the glass is full; then serve.

6.

ABSINTHE PLAIN.

A NICE WAY.

Fill a large bar strainer with fine ice, and set it on top of a medium-size cut glass with another glass alongside of it; now pour a jigger of absinthe over the ice (and a little orgeat if the customer desires it); and, when it is strained, place the strainer on the other glass, pour the contents of the first glass over the ice again, and continue to do this until enough ice has dissolved to fill one of the glasses; then serve.

7.

SUICESSE.

SAN FRANCISCO STYLE.

Into a medium-size mixing-glass place two or three lumps of ice, a dash of orgeat syrup and a jigger of absinthe. Shake until frost appears on the outside of shaker, strain into punch glass, fill up with cold syphon soda and serve.

8.

9.

BRANDY COBBLER.

Dissolve a dessertspoonful of bar sugar in a little water in a medium-size mixing-glass, fill the glass with fine ice, add about a jigger and a half of cognac, shake thoroughly, decorate and serve with straws.

10.

CHAMPAGNE COBBLER.

Fill a cut-glass goblet with fine ice, and lay some assorted fruits on the top of it; then take a large mixing-glass and place in it one dessertspoonful of sugar and dissolve it in a little water; add a wineglassful of champagne (pour carefully), mix and then pour over the decorated ice in the goblet, and serve with straws.

COCKTAILS.

CLARET COBBLER. 11.

Place a large spoonful of sugar in a large mixing-glass, fill the glass with fine ice and pour in all the claret the glass will hold. Shake thoroughly, decorate with fruits in season and serve with straws.

SHERRY COBBLER. 12.

Make the same as Claret Cobbler, with sherry wine substituted for claret.

WHISKEY COBBLER. 13.

Make the same as Brandy Cobbler, substituting the desired liquor for cognac.

WHITE WINE COBBLER. 14.

Make the same as Claret Cobbler, with the desired brand of white wine substituted for claret.

ABSINTHE COCKTAIL. 16.

Fill a medium-size mixing-glass with fine ice, and pour over it five drops of Angostura, a dash of orgeat, a dash of anisette and about half a jigger of absinthe; stir well or shake, strain into small whiskey glass (cocktail glasses have gone out of date), add a piece of twisted lemon peel and serve.

BARRY COCKTAIL. 17.

Make the same as Martini Cocktail, with five drops of crème de menthe added. (*See Recepte No. 27.*)

COCKTAILS.

18.

BRANDY COCKTAIL.

In a small bar glass place one quarter of a teaspoonful of sugar with just enough water to dissolve it, a piece of ice about the size of an egg, three drops of Angostura bitters and a jigger of cognac; stir well until the beverage is well cooled, strain into small cut bar glass, throw in a piece of twisted lemon peel and serve with ice water on the side.

19.

CHAMPAGNE COCKTAIL.

Place in a champagne glass two or three lumps of ice, on the top of which lay a cube of sugar with a pair of sugar tongs. Saturate the sugar with Angostura bitters, fill the glass with champagne (the desired brand), stir carefully and serve.

If the wine is cold omit the ice, as ice impairs the flavor of wine.

Some bartenders decorate this drink with fruits, but that is a matter of taste.

20.

DUDE COCKTAIL.

Into a large bar glass place two or three lumps of ice and a pony of crème de vanille; fill the glass with lemon soda or sweet soda and a little lime juice, stir, decorate with fruits and serve with straws. Keep the doors closed so the draughts will not affect the creature.

21.

DUTCH COCKTAIL.

A glass of beer.

22.

FANCY WHISKEY COCKTAIL.

Dissolve one-quarter of a teaspoonful of bar sugar in a dessertspoonful of water in a small mixing-glass; add a piece of ice, a dash of Curaçoa, three drops of Angostura bitters, a jigger of whiskey and a piece of twisted lemon peel; stir thoroughly, strain into a frosted glass and serve with ice water on the side.

23.

GIN COCKTAIL.

Into a small mixing-glass place a piece of ice, a dash of gum syrup, a long dash of Bonnekamp bitters and about ten drops of orange bitters or two drops of Selner bitters; twist and throw in a small piece of lemon peel and add a jigger of Holland gin. This drink to be palatable must be served very cold; therefore a thorough stirring is necessary.

COCKTAILS.

JAPANESE COCKTAIL. 24.

Make the same as a Brandy Cocktail, substituting orgeat syrup in place of a little sugar and water.

JERSEY COCKTAIL. 25.

Fill a large bar glass with cracked ice, and add a spoonful of sugar and a dash of Angostura bitters; flavor with apple jack, fill up with good cider, throw in a piece of twisted lemon peel, stir and serve.

MANHATTAN COCKTAIL. 26.

Into a small mixing-glass place one-quarter teaspoonful of sugar, two teaspoonfuls of water, three drops of Angostura, one-half jiggerful of whiskey, and one-half jiggerful of vermouth; stir, strain into a small bar glass, twist lemon peel and throw in and serve with ice water on the side.

MARTINI COCKTAIL. 27.

This popular appetizer is made without sweetening of any description, as the Old Tom Cordial gin and the Italian vermouth of which it is composed are both sweet enough. Into a small mixing-glass place a piece of ice, four drops of Angostura bitters, half a jigger of Old Tom Cordial gin, half a jigger of Italian vermouth and a piece of twisted lemon peel; stir thoroughly, strain into a small bar glass and serve with ice water.

MIKADO COCKTAIL. 28.

Another name for a Japanese Cocktail. (*See Recipe No. 24.*)

OLD TOM GIN COCKTAIL. 29.

Make the same as Holland Gin Cocktail, with Old Tom gin substituted for Holland gin. (*See Recipe No. 23.*)

OLD TOM GIN (CORDIAL) COCKTAIL. 30.

Never use sweetening of any description in this drink, as the cordial gin is sweet enough. Into a small mixing-glass place a piece of ice, about a teaspoonful of orange bitters, a jigger of Old Tom Cordial and a piece of twisted lemon peel; stir, strain into a small bar glass and serve with ice water on the side.

COCKTAILS.

31. PINEAPPLE COCKTAIL.

Into a small mixing-glass place two teaspoonfuls of pineapple syrup, three drops of Angostura bitters, a piece of ice and a jigger of the desired liquor; stir thoroughly, strain into small bar glass, add a small slice of pineapple and serve with ice water on the side.

32. RUM COCKTAIL.

Make the same as Brandy Cocktail, with Jamaica rum substituted for brandy.

33. SODA COCKTAIL.

Place two or three lumps of ice in a large bar glass with a teaspoonful of bar sugar and two dashes of Angostura bitters. Fill the glass with lemon soda or sweet soda and a little lime juice, stir briskly and serve immediately.

34. TURF COCKTAIL.

Into a small mixing-glass dissolve one-quarter teaspoonful of bar sugar in a teaspoonful of water. Add a piece of ice, three drops of Angostura bitters, half a jiggerful of Holland gin and half a jiggerful of vermouth. Stir thoroughly, add a piece of twisted lemon peel, strain into small bar glass and serve with ice water on the side. A small dash of orange bitters may be added to this drink.

35. VERMOUTH COCKTAIL.

Make the same as a Brandy Cocktail, with either French or Italian vermouth substituted for brandy.

36. WHISKEY COCKTAIL.

Make the same as Brandy Cocktail, with whiskey substituted for cognac.

♣ **CRUSTAS** ♣

37.

BRANDY CRUSTA.

38.

Prepare a stem claret glass by rubbing the rim with a piece of lemon. Then dip the edge in bar sugar so as to frost the glass. Pare a lemon as you would an apple, so the peel will all be in one piece; lay the peel in the glass carefully with a fork or sugar tongs, so it will just fit the interior of the glass. Now take a medium-size mixing-glass three-quarters full of cracked ice, and add four drops of Angostura bitters, one dash of gum and a taste of maraschino. Throw in a jigger of good cognac and a few drops of lime juice, stir thoroughly, strain into prepared glass, decorate and serve.

GIN CRUSTA.

39.

This drink is made like a Brandy Crusta, with Holland gin substituted for cognac and two dashes of Bonnekamp bitters used in place of four drops of Angostura bitters.

WHISKEY CRUSTA.

40.

The same as Brandy Crusta, with bourbon whiskey substituted for cognac.

DAISIES

41.

BRANDY DAISY.

42.

Half fill a medium-size mixing-glass with cracked ice, add the juice of one lime, three dashes of orange cordial and a jigger of brandy. Shake, strain into a punch glass, fill up with syphon seltzer and serve.

43. WHISKEY, GIN AND RUM DAISIES.

• All made the same as the preceding recipe, with the desired brand of liquor substituted for cognac.

44.

FIXES

45.

BRANDY FIX.

Fill a punch glass with fine ice and set it on the bar. Then take a medium-size mixing-glass and put in it one dessertspoonful of sugar, the juice of one lemon, a jigger of whiskey and enough water to make a drink large enough to fill the punch glass containing the ice. Stir well, pour over the ice in the punch glass, decorate and serve with straws.

46.

GIN FIX.

Make the same as preceding recipe, substituting Holland gin for brandy.

47.

RUM FIX.

Make the same as Brandy Fix, substituting Jamaica rum for brandy.

48.

SHERRY FIX.

Make the same as Brandy Fix, substituting sherry for brandy.

49.

WHISKEY FIX.

Make the same as Brandy Fix, substituting whiskey for brandy.

FIZZES

50.

GIN FIZZ, PLAIN.

51.

Place a dessertspoonful of sugar in a small mixing-glass with the juice of one lemon. Add a jigger of Holland gin and two lumps of ice. Shake thoroughly, strain into thin glass, fill with syphon seltzer off the ice and serve immediately.

GINGER ALE FIZZ.

52.

Make the same as Plain Gin Fizz, substituting ginger ale in place of syphon seltzer.

GOLDEN FIZZ.

53.

Add the yolk of an egg to a Plain Gin Fizz and shake thoroughly.

MORNING GLORY FIZZ.

54.

Place a dessertspoonful of sugar and the juice of one lemon in a medium-size mixing-glass, add two dashes of absinthe previously dissolved in a little water, the white of one egg and a jigger of either gin or whiskey (whichever the customer prefers). Place a few lumps of ice in a shaker and shake well, strain into large punch glass, fill with syphon seltzer and serve immediately.

OLD TOM GIN FIZZ.

55.

Made the same as Plain Gin Fizz, with Old Tom gin substituted for Holland gin. In using Old Tom Cordial always use a little less sugar, as the cordial is much sweeter than plain gin.

ROYAL FIZZ.

56.

This is an Old Tom Gin Fizz with a pony of crème de vanille added.

SILVER FIZZ.

57.

Make the same as Plain Gin Fizz with the white of an egg added. Shake well.

58.

FLIPS

59.

BRANDY FLIP.

Place a dessertspoonful of sugar in a medium-size mixer, break an egg in a clean glass to ascertain that it is fresh, and then throw it in. Add a few lumps of ice and a jigger of cognac, shake thoroughly, strain into small cut glass, grate nutmeg on top and serve.

60.

GIN FLIP.

Make the same as Brandy Flip, with Holland gin substituted for brandy.

61.

SHERRY FLIP.

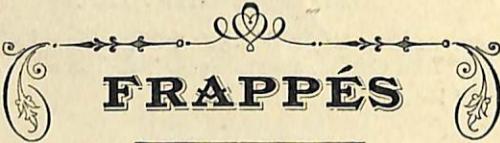

Make the same as Brandy Flip, with sherry wine substituted for brandy.

62.

WHISKEY FLIP.

Make the same as Brandy Flip, with whiskey substituted for brandy.

63.

FRAPPÉS

64.

ABSINTHE FRAPPÉ.

(See Recipes Nos. 3 and 4.)

CHAMPAGNE FRAPPÉ.

65.

Place the bottle of wine which you desire to cool in a champagne cooler or ice-cream freezer, and pack the space between the inner and outer vessels with two parts ice and one part salt. If no cooler or freezer is available, wrap the bottle in a towel, place it in a bucket and pack the space around the bottle with salt and ice. Cover with a napkin to keep the cold air in, and the longer it stands the colder it will get.

CRÊME DE MËNTHÉ FRAPPÉ.

66.

Fill a small cut glass with shaved or fine cracked ice, and pour as much crême de mênthe over it as the glass will hold. This is a most popular after-dinner beverage with the upper ten.

FRAPPÉ DRINKS.

67.

Frappé is a French word meaning frozen; therefore a frappé drink is a frozen one, or any liqueur or other beverage poured over and served with fine ice is considered à la frappé.

VERMOUTH FRAPPÉ.

68.

Fill a medium-size mixing-glass with fine ice, and pour over it one and one-half jiggers of either French or Italian vermouth, shake thoroughly, strain into small cut bar glass and serve.

HOT DRINKS

69.

ALE HOT OR MULLED ALE.

70.

Place an iron which has been heated to a white heat in a pewter mug of ale. Immerse slowly, being careful not to allow the ale to run over the sides of the mug, and serve.

71. ALE SANGAREE, HOT.

Dissolve a spoonful of bar sugar in a little hot water in a mug, fill the mug with ale, immerse a white-hot iron into the ale until the desired temperature has been attained, grate nutmeg over the top and serve.

72. ALHAMBRA ROYAL.

Pour a pony of cognac into a cup of chocolate and add a little lime juice to it.

73. APPLE BRANDY, HOT.

Fill a hot-water glass three quarters full of boiling water and dissolve in it a cube of sugar. Add as much apple brandy as the glass will hold, stir, spice to taste and serve.

74. BEEF TEA.

Dissolve a teaspoonful of Liston's or Leibig's extract of beef in a cup, mug or glass of boiling water, season to taste with celery salt and pepper, and serve. Maggi's Bouillon and Armer's Vigoral are also highly recommended.

75. BLACK STRIPE, HOT.

Into a hot-water glass place a teaspoonful of molasses and fill the glass two-thirds full of boiling water. Dissolve the molasses and fill the glass with St. Croix rum and serve after stirring. A little spice of any description can be served with this drink.

76. BLUE BLAZER.

Use two mugs. Dissolve a teaspoonful of sugar in a little hot water in one mug, and place a wineglassful of Scotch whiskey in the other one. Set the liquor afire and pour the burning liquor from one mug to another until the desired temperature has been attained, throw in a piece of twisted lemon peel for a flavor and serve.

77. BRANDY BURNT.

Place two lumps of sugar in a saucer and pour over them a jigger of brandy. Set the liquor afire and let it burn until all the sugar is dissolved, mixing and stirring the while. Serve in hot-water glass.

HOT DRINKS.

BRANDY BURNT AND PEACH.

78.

FOR DIARRHŒA.

Place two or three slices of dried peaches in a hot-water glass and pour burnt brandy made according to the preceding recipe over them. Serve with nutmeg.

BRANDY FLIP, HOT.

79.

A Hot Brandy Toddy with a piece of roasted cracker on top is a Hot Brandy Flip.

BRANDY SLING, HOT.

80.

Place a cube of sugar in a hot-water glass, fill the glass two-thirds full of boiling water, dissolve the sugar, fill the glass with cognac and serve with grated nutmeg.

BRANDY TODDY, HOT.

81.

Dissolve a cube of sugar in a hot-water glass two-thirds full of boiling water, fill the glass with cognac, add a slice of lemon and serve.

BUTTERED RUM, HOT.

82.

Make the same as a Hot Rum Sling with a teaspoonful of butter added.

CAFÉ ROYAL.

83.

Hold over a cup of good, hot, black coffee a teaspoon containing a lump of sugar saturated with yellow Chartreuse and set on fire, allowing it to burn until the sugar is dissolved. Mix well and serve.

CLARET, HOT.

84.

FOR ONE PERSON.

Dissolve two cubes of sugar in a hot-water glass half full of boiling water, fill the glass with claret, add a slice of lemon, grate nutmeg over the top and serve.

85.

CRANBERRYADE.

Place about a dozen cranberries in a large mixing-glass and mash them well with a muddler. Add some boiling water, strain into thin glass, sweeten to taste, dash with port wine and serve. Any kind of berries can be treated in the same manner.

86.

EGG FLIP, HOT.

Pour a pint of Bass' ale in a saucepan and set on the fire to boil. Then beat up a couple of eggs and mix with two tablespoonfuls of sugar (brown sugar is the best), making a light batter. When the ale has boiled, pour over the eggs very slowly at first to prevent curdling, then pour backwards and forwards until the mixture appears all alike and smooth. Spice well and serve as hot as possible. This is an old English cure for a bad cold.

87.

EGG NOG, HOT.

Make the same as Cold Egg Nog, with hot milk substituted for ice and milk. (*See Recipes Nos. 163 and 164.*)

88.

GIN SLING, HOT.

Make the same as Brandy Sling, Hot, with Holland gin substituted for brandy. (*See Recipe No. 80.*)

89.

GIN TODDY, HOT.

Make the same as Brandy Toddy, Hot, with Holland gin substituted for brandy. (*See Recipe No. 81.*)

90.

IRISH WHISKEY, HOT.

Place a cube of sugar in a small hot-water glass, fill the glass three-quarters full of boiling water, stir until sugar is dissolved, fill the glass with good Irish whiskey, add a small slice of lemon, spice to taste and serve.

91.

LEMONADE, HOT.

Place two cubes of sugar and the juice of one lemon in a thin glass, fill with hot water, stir until sugar is dissolved, add a slice of lemon and serve.

LOCOMOTIVE.

92

Into a large mixing-glass place a tablespoonful of sugar, a teaspoonful of honey, a pony of Curaçoa, the yolk of one egg and a claret glass of claret. Mix well and boil in a saucepan. Take another saucepan and pour the drink from one pan to the other until the mixture attains a smooth appearance. Pour into a large mug, grate nutmeg over top, add a slice of lemon and serve.

MILK PUNCH, HOT.

93.

Make the same as Cold Milk Punch with hot milk substituted for cold milk and ice. (*See Recipe No. 236.*)

MONKEY PUNCH, HOT.

94.

A SOUTHERN WINTER DRINK.

Dissolve a teaspoonful of sugar in a hot-water glass half full of boiling water. Fill the glass with St. Julien wine, add a slice of lemon, grate nutmeg over top and serve.

MULLED OR HOT WINE.

95.

Dissolve six large spoonfuls of sugar and the juice of six lemons in half a pint of boiling water. Heat a bottle of the desired brand of wine to a boiling point in a clean metallic vessel, and add the flavored water to it. Spice well with nutmeg, add a sprig of mint or verbena, and serve in thin glassware.

MULLED OR HOT WINE WITH EGGS.

96.

A SIMPLE RECIPE FOR ANY WINE.

Dissolve one-quarter pound of sugar in one pint of boiling water, add the juice of six lemons and one and one-half bottles of the desired wine. Keep over the fire until just ready to boil. In the interim beat up the whites of one dozen eggs until they appear like froth, and place them in a punch bowl which has been heated. Then pour in the hot mixture (stirring rapidly to prevent the eggs from cooking), spice well and serve in thin glassware.

N. B.—Don't pour the eggs into the wine.

PORTER MULLED, OR HOT PORTER.

97.

The same as mulled ale, with Dublin stout substituted for ale. (*See Recipe No. 70.*)

98. PORTER SANGAREE, HOT.

Make the same as Ale Sangaree, Hot, substituting Dublin stout for ale.
(See Recipe No. 71.)

99. PORT WINE NEGUS, HOT.

Dissolve a teaspoonful of bar sugar in a hot-water glass three-quarters full of boiling water. Fill the glass with port wine, stir, and serve without decorations, flavors or spices of any description.

100. PORT WINE SANGAREE, HOT.

Place a spoonful of sugar in a hot-water glass and fill two-thirds full of boiling water. Stir until sugar is dissolved and add enough port wine to fill the glass, grate nutmeg over the top and serve.

101. ROYAL PUNCH, HOT.

Place two tablespoonfuls of sugar and the juice of four lemons in a small punch bowl and dissolve in one pint of boiling tea. Add half a pint of cognac, a jigger of Curaçoa and the well-beaten whites of three eggs. Serve as hot as possible in thin glassware.

102. RUM SLING, HOT.

Make the same as Hot Brandy Sling, with Jamacia rum substituted for cognac. (See Recipe No. 80.)

103. RUM TODDY, HOT.

Make the same as Hot Brandy Toddy, with Jamaica rum substituted for cognac. (See Recipe No. 81.)

104. SCOTCH, HOT.

Dissolve a cube of sugar in a hot-water glass three-quarters full of boiling water, add enough Scotch whiskey to nearly fill the glass, throw in a piece of lemon peel and a clove, and grate nutmeg over the top.

HOT DRINKS.

SPICED RUM, HOT.

105.

Dissolve a cube of sugar in a hot-water glass three-quarters full of boiling water, add enough Jamaica rum to nearly fill the glass, put in some assorted spices and serve.

N. B.—A small piece of butter may be added to this drink with the customer's permission.

TAM O'SHANTER.

106.

This drink is made the same as Hot Whiskey Punch, with old Islay whiskey substituted for bourbon whiskey. (*See Recipe No. 110.*)

TEA PUNCH, HOT.

107.

Make a quart of good, well-steeped tea. Then take a large punch bowl and put in three-quarters of a pint of cognac, one-quarter of a pint of Jamaica rum, the fresh juice of four lemons and six heaping tablespoonfuls of sugar. Set this mixture on fire and stir rapidly, adding the hot tea slowly the while. A nice way of flavoring this drink is to mash the rinds of the lemons into the sugar with a muddler before placing the sugar in the bowl. When the sugar has absorbed all the moisture from the rinds, throw them away.

TOM AND JERRY.

108.

To make this celebrated beverage, a batter must first be prepared in the following manner. Procure any number of eggs and separate the whites from the yolks. Beat the whites until stiff and the yolks until thin; then pour both together into a large bowl and mix with enough sugar to make a thick paste. Your batter is now ready, so when you wish to make a Tom and Jerry, rinse out a mug, cup or glass with boiling water (this is done to heat it), place a heaping teaspoonful of the batter into the hot mug (mugs are generally used to serve this drink), add a jigger of cognac and a dash of St. Croix rum, fill the glass with hot milk (some use hot water), and stir until the batter is all dissolved, grate nutmeg on top and serve.

N. B.—A half teaspoonful of carbonate of soda stirred into Tom and Jerry batter will keep it sweet and prevent the sugar from settling to the bottom of the bowl.

WATER, HOT.

109.

Place a spoon in a hot-water glass full of boiling water and serve. Dyspeptics claim this as a great relief for their affliction.

JULEPS.

110. **WHISKEY PUNCH, HOT.**

Dissolve a cube of sugar in a hot-water glass two-thirds full of boiling water, pour in enough of the desired brand of whiskey to nearly fill the glass and add a few drops of lemon juice, a slice of lemon and some spice.

111. **WHISKEY SLING, HOT.**

Make the same as Brandy Sling, Hot, substituting the desired brand of whiskey for cognac. (*See Recipe No. 80.*)

112. **WHISKEY TODDY, HOT.**

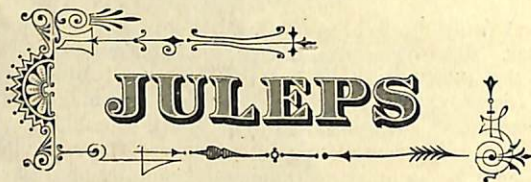

Make the same as Hot Brandy Toddy, substituting the desired brand of whiskey for cognac. (*See Recipe No. 81.*)

113. **YARD OF FLANNEL.**

ENGLISH.

Make the same as Hot Egg Flip. (*See Recipe No. 86.*)

114.

115. **BRANDY JULEP.**

THE NEW STYLE.

Fill a large goblet with fine ice and pour a jigger of cognac over it; then take several sprigs of young, tender mint and place them in a medium-size mixing-glass with a dessertspoonful of bar sugar and just enough water to nearly fill the goblet, in which you have already placed the fine ice and brandy. Press the mint with a muddler until the sugar is all dissolved and the water is well flavored with mint, strain into the goblet of ice and brandy, dash with Jamaica rum, ornament with fruits and a few sprigs of mint which have been moistened and dipped in sugar, and serve with straws.

LEMONADES.

GIN JULEP. 116.

Make the same as Brandy Julep, with Holland gin substituted for brandy and the rum flavor omitted.

MINT JULEP. 117.

The same as Brandy Julep.

RUM JULEP. 118.

Make the same as Brandy Julep, with Jamaica rum substituted for cognac.

WHISKEY JULEP. 119.

Make the same as Brandy Julep, with whiskey substituted for cognac.

LEMONADES. 120.

APOLLINARIS LEMONADE. 121.

Place a piece of ice in a large goblet and set the glass on the bar in front of the customer. Then place a tablespoonful of sugar and the juice of two limes in a large mixing-glass with just enough Apollinaris to dissolve the sugar. Stir well until sugar is dissolved, pour into the prepared goblet; then fill the goblet with Apollinaris, decorate and serve with straws.

CENTENNIAL LEMONADE. 122.

Into a large mixing-glass place a tablespoonful of sugar, the juice of two limes, the white of an egg and some cracked ice. Fill the glass with water, shake thoroughly, strain into a cut goblet, decorate and serve with straws.

LEMONADES

123.

CIRCUS LEMONADE.

This drink in a bar-room is a Plain Lemonade colored with raspberry syrup; but a Circus Lemonade proper is a beverage that is sold on race courses and fair grounds, and is made in the following manner:

Procure a large tub or headless barrel and fill it nearly full of water; add enough tartaric acid to suit and sweeten to taste with sugar (two pounds of tartaric acid will make over thirty gallons of lemonade). Red aniline is used for coloring. Always slice up a few lemons, limes or oranges and throw in. If you have no ice handy with which to cool this delightful beverage, procure a piece of glass and fasten it to the sides of the barrel with strings so it will float near the top, and put some of the sliced fruit on it. This little deception causes the drink to appear more inviting on a warm day.

124.

CLARET LEMONADE.

A Plain Lemonade dashed with claret.

125.

EGG LEMONADE.

Into a large mixing-glass place a tablespoonful of sugar, the juice of two limes, a fresh raw egg and some cracked ice. Fill the glass with water, shake thoroughly, strain into large cut goblet, decorate and serve with straws.

126.

LEMON SQUASH.

The British name for a Plain Lemonade.

127.

NAPA SODA LEMONADE.

Make the same as Apollinaris Lemonade, with Napa soda water substituted for Apollinaris.

128.

ORGEAT LEMONADE.

A sour Plain Lemonade dashed with orgeat syrup.

129.

PLAIN LEMONADE.

Into a large mixing-glass place a tablespoonful of bar sugar, the juice of two limes and just enough water to dissolve the sugar, stir thoroughly and pour into a large goblet containing a piece of ice, fill the goblet with water, stir, decorate and serve with straws.

LEMONADES.

PORT WINE LEMONADE. 130.

A Plain Lemonade dashed with port.

RASPBERRY LEMONADE. 131.

A Plain Lemonade colored with raspberry syrup.

SELTZER LEMONADE. 132.

Make the same as Plain Lemonade, with seltzer water substituted for plain water.

SHERRY LEMONADE. 133.

A Plain Lemonade dashed with sherry wine.

SODA LEMONADE. 134.

Make the same as Plain Lemonade, with syphon or plain soda substituted for water.

SPIKE LEMONADE. 135.

A Plain Lemonade dashed with whiskey.

TEXAS LEMONADE. 136.

Another name for Spike Lemonade. Sometimes spoken of as a lemonade with a wink, or a lemonade with a stick in it.

Miscellaneous and Unclassified Drinks

138.

AMER PICON.

A POPULAR FRENCH BEVERAGE.

Into a medium-size cut glass place a piece of ice, a jigger of Amer Picon and a pony of Grenadine syrup. Fill the glass with siphon seltzer and serve.

139.

ARCHBISHOP.

Into a medium-size mixing glass place a spoonful of sugar dissolved in a jigger of water; add a little cracked ice and a jigger of port wine. Shake thoroughly, pour into a punch glass, add a slice of lemon, dash with Jamaica rum and serve with straws.

140.

'ARF AND 'ARF, OR BLACK AND TAN.

ENGLISH.

A mug or glass containing half porter and half ale. (*See Half and Half Recipe No. 173.*)

141.

"AULD MAN'S MILK."

SCOTCH.

Another name for Egg Nogg. (*See Recipes Nos. 163 and 164.*)

142.

B. AND S.

The English way of ordering a Brandy and Soda. (*See Recipe No. 149.*)

142-1.

CONCLAVE.

Into a long soda glass place a piece of ice, a pony of raspberry and a pony of orgeat syrups. Fill the glass with equal parts of milk and sweet soda; stir well and serve. This drink is nothing more or less than a Queen Charlotte with a little milk in it.

142-2.

BICYCLE PUNCH.

Sweeten a glass of cold milk and seltzer. Serve with or without straws.

MISCELLANEOUS DRINKS.

RICKEY.

142-3.

Into a long thin champagne glass containing a piece of ice, squeeze half a lime and drop the rind, seeds and all in without straining; add a jigger of gin and fill the glass with siphon seltzer. Serve with spoon.

The above recipe is the correct thing but if I were inclined to partake of a Rickey myself, I should substitute a lemon for the lime as a lime skin has a rank flavor.

SOFT TODDY.

142-4.

NEW ORLEANS STYLE

Into a small mixing-glass place a cube of sugar and a small piece of lemon skin (not lime skin) about as large as you would use for a cocktail; now add about two table-spoonfuls of boiling water and muddle well with a bar spoon until all the oil has been boiled out of the rind and the sugar has been dissolved; then add a jigger of good whiskey, and shake the whole up in a shaker containing two or three lumps of ice until enough ice has been dissolved to make the drink large enough to fill a small cut bar glass, into which you then strain it; then with a bar spoon or fruit fork put the lemon skin in the drink; grate a little nutmeg on top and you will then have compounded a nectar fit for the gods. (*See Recipe No. 303*).

GRENADINE AND SELTZER.

142-5.

Into a long thin glass place about a jigger of grenadine syrup and a piece of ice, fill up the glass with syphon seltzer and serve.

ST. PETERSBURG OR RUSSIAN COCKTAIL. 142-6.

Fill a small thin goblet with cracked ice and stir it around a few moments to thoroughly chill the glass as well as to moisten it; Now throw out the ice and fill the glass with bar sugar. Empty the glass again leaving it chilled and frosted; dash a flavor of Angostura bitters around the inside of the glass, add a jigger of cognac and a piece of twisted lemon peel, fill the glass with cold champagne off the ice and smile.

STAY DOWN.

142-7.

Lew Hagan the great bar-room mechanic claims that a glass of genuine Schweppe's soda with a little choice brandy in it will stay on the stomach when nothing else will.

Gus Massey another famous expert on mixology holds that a pony of crème de cassis added to a light B. and S. is the correct thing.

Whatever you do, be sure and use good cognac as a poor grade of brandy is very bad for a delicate stomach.

MISCELLANEOUS DRINKS.

142-8. SAM WARD.

Serve white curacao en frappé with a slice of lemon or lime inserted in the ice. Straws always go with this drink.

142-9. MCKINLEY PUNCH.

This popular decoction is simply a grenadine punch with a little whiskey in it.

142-10. DIXEY COCKTAIL.

A plain whiskey cocktail with a dash of curacao and about five drops of crème-de-menth added is the correct formula for this well known appetizer.

142-11. MÊLEE CASSIS.

A FAMOUS FRENCH DRINK.

Half crème de cassis and half cognac served in a pony glass with ice water on the side is a Mêleé Cassis.

142-12. GRENADINE, KIRSCH AND SELTZER.

A PARISIAN DELIGHT.

Sweeten a jigger of Kirsch wasser with grenadine syrup in a long thin glass; add a lump of ice, fill the glass with siphon seltzer, stir well and serve.

142-13. ANISETTE AND KIRSCH.

One of the most popular after dinner beverages in the European capitals is a pony of equal parts of Anisette and Kirsch. Serve ice water on the side.

142-14. SNOW BALL.

Into a small cobbler glass place a small barspoonful of sugar, a jigger of whiskey, and the white of an egg; fill the glass with fine ice, shake well, decorate and serve with straws.

142-15. VELVET GAFF.

Half Champagne and half Dublin Stout mixed together in any quantity or served in any style is all there is to this famous British beverage.

142-16. WHITE PLUSH.

Whiskey and Milk.

142-17. CIDER CUP.

MADE IN A PITCHER FOR FOUR.

Take a pint of cider, a jigger of Sherry, a jigger of Brandy, a jigger of Curacao, a piece of ice, one-half of an orange sliced, one yellow rind of a lemon, one slice of a cucumber, a little sugar to taste and nutmeg on top.

MISCELLANEOUS DRINKS.

REVIVER. 142-18.

Into a large goblet place two lumps of ice, a jigger of raspberry syrup, a wine-glass of milk and a pony of brandy. Fill the glass with sweet soda, stir and serve.

WHISKEY AND GLYCERINE. 142-19.

No well regulated bar-room should ever be without pure glycerine, kept in a syrup bottle. Nothing sweetens spirituous liquors so well and nothing can excel a teaspoonful of glycerine for hoarseness. Use the same as gum syrup.

DURKEE. 142-20.

Into a large mixing glass place half a lemon with just enough sugar to overcome the acidity of the sour. Muddle well as in making a soft toddy, fill the glass two-thirds full of fine ice, add a jigger of Jamiaca rum flavored with a little Curacoa and fill the glass with siphon soda, stir well and serve.

BALAKLAVA NECTAR. 142-21.

FOR FIFTEEN PERSONS.

Use large punch bowl. Peel two lemons and put peel in bowl, squeeze the lemon on them and add four tablespoons of sugar, press well to extract flavor, add two bottles of plain soda water, two bottles of champagne and two bottles of claret; stir well, put in a block of ice, dress with fruit and serve with ladle.

ECAU. 142-22.

This is a double distilled kummel made into a liqueur and should be served after dinner by being poured over shaved ice like Crème de Mênthe, etc.

GIN FIZZ WITH MILK. 142-23.

A spoonful of milk or cream is sometimes added to a Gin Fizz before shaking. It certainly improves the appearance of the drink and many people claim that it also improves the flavor.

HIGH BALL OR LOW BALL. 142-24.

Whiskey and seltzer served in a long thin glass is known by both of the above appellations. A Scotch High Ball is Scotch whiskey and seltzer, etc., etc.

ACQUAVITA. 142-25.

FAMOUS ITALIAN BEVERAGE.

Grape Brandy flavored with anise seed.

FLOAT. 142-26.

Any wine or liquor carefully poured over a temperance drink so the two liquids do not mix is called a float.

Claret on top of lemonade is called a Claret and Lemonade Float. A Whiskey Float is about a jigger of whiskey carefully poured over a long thin glass of seltzer or Apollinaris.

MISCELLANEOUS DRINKS.

A glass of water with a cork in it has been served by funny barkeepers in the past for a float, but I never knew a person to benefit himself either financially or socially by joshing people. Surely no saloonman wants his customers belittled or made fun of.

142-27. HILLYCROFT COOLER.

Peel a lemon so that it will curl in the form of a cone and after having pressed the oil out of part of the peel, just to spray the glass a little, you place the cone inverted in a long thin glass and fill it up with fine cracked ice. Some people put a little lemon juice in, but that detracts. Then you add a jigger of Tom Gin. Let this lie for a minute. All you have to do now is to fill up the glass with imported ginger ale and there you are.

142-28. KITTY.

A long drink of Claret and Ginger Ale is known by the above appellation.

142-29. GRENADINE PUNCH.

Place a punch glass on the bar with a piece of ice in it, then take a small mixing glass and dissolve a jigger of Grenadine syrup and a little lime juice in enough siphon seltzer to fill the punch glass, decorate with fruits and serve with straws. Owing to the fact that Grenadine syrup contains considerable acidity, very little lime juice should be used.

142-30. McLAUGHLIN COCKTAIL.

FROM THE RECIPE OF THAT FAMOUS LOVER OF GOOD THINGS

MAJOR FRANK McLAUGHLIN.

Into a long thin Champagne glass, place a jigger of crème de cognac, a dash of Angostura bitters and a piece of twisted lemon skin. Fill the glass with cold Champagne off the ice, close your eyes and imagine yourself in paradise.

142-31. BARKEEPERS' DELIGHT.

Just a little whiskey if you please.

142-32. CHAMPAGNE PUNCH.

A Champagne punch is simply a lemonade made of Champagne instead of water with a little decoration, etc.

It is one of the best ways to spoil good Champagne imaginable. Something should be added to the above recipe to give it a body, otherwise it is a very unsatisfactory beverage considering the cost of it. A little Curacao or Brandy or even both Curacao and Brandy make the punch much more inviting. Many shrewd bar-boys in the past have made bowls of Champagne punch by substituting siphon seltzer or Apollinaris for the effervescent wine. No one can tell the difference when the punch has been given a body with various cordials and a flavor of rum which many people prefer in a large bowl. (*See Recipe No. 226 for bowl of Champagne punch; see Imperial punch Recipe No. 234.*)

BALTIMORE KISSES. 143.

Sweeten the well-beaten whites of four eggs to taste with maple sugar and place in a small punch bowl with a half bottle of currant wine off the ice. Serve in thin glassware for two. A larger quantity can be made by using the above recipe for proportion.

BISHOP. 144.

Make a lemonade of any effervescent water, to which add a jigger of Burgundy and a dash of Jamaica rum. Stir, decorate and serve with straws.

BLACK STRIPE, COLD. 145.

FOR SORE THROAT.

Place a teaspoonful of molasses in a small bar glass with a jigger of St. Croix rum. Stir well and serve.

BONANZA. 146.

Into a stem claret glass place a piece of ice, a pony of brandy and a jigger and a half of angelica. Fill the balance with reisling, stir and serve.

BRANDY CHAMPERELLE. 147.

Place equal quantities of crème de cassis, maraschino, yellow Chartreuse and cognac in a sherry glass in the order named, not allowing the ingredients to mix. Serve with ice water.

BRANDY AND GUM. 148.

Place about a teaspoonful of gum syrup in a small bar glass containing a small teaspoon. Set in front of customer with a bottle of cognac at his right hand and serve water on the side after stirring.

BRANDY AND SODA. 149.

Place a medium-size bar glass in front of the customer with a bottle or decanter of cognac at his right, allowing him to help himself to the liquor; then fill the glass with cold syphon soda and serve.

150.

BRECK AND BRACE.

A '49ERS BEVERAGE.

Fill a small bar glass with water and throw it out again, then fill the glass with bar sugar and throw that out, leaving the glass apparently frosted inside. pour in a jigger of cognac and fill the glass with cold champagne. Then smile.

151.

CARDINAL FOR A PARTY.

Dissolve six tablespoonfuls of sugar in the juice of ten lemons and one bottle of plain soda. Add a jigger of yellow Chartreuse and pour in a large bottle of Burgundy and a pint of Sauterne. Mix thoroughly, place a large piece of ice in the bowl, decorate with slices of orange and pineapple and a few sprigs of mint, and serve in thin glassware.

152.

CHAMPAGNE CUP.

See Claret and Champagne Cup (*Recipe No. 156*).

153.

CHAMPERELLE.

Another name for Pousse Café. See Brandy Champerelle (*Recipe No. 147*), and Pousse Café (*Recipe No. 189*).

154.

CHASER.

A small glass of malt liquor served on the side with any spirituous liquor is called a Chaser.

155.

CIDER NECTAR.

Fill a punch glass with fine ice and set it in front of the customer. Then take a large mixing-glass and put in it a dessertspoonful of sugar, the juice of two limes, a dash of whiskey or brandy and some cider. Stir until sugar is dissolved and then pour over the fine ice in the punch glass, decorate with fruits in season and serve with straws.

CLARET AND CHAMPAGNE CUP.

156.

For one quart of claret take the juice of four peeled lemons and two oranges which have been squeezed into a bowl containing four tablespoonfuls of bar sugar; in this bowl now macerate the leaves of six sprigs of mint; then pour in one pony of Jamaica rum, two ponies of brandy and two of maraschino or some other cordial; stir the whole like wildfire and then pour in the claret; to the whole then add one bottle of plain soda (or one of champagne if Champagne Cup be desired) one pint of Rhine wine and the peel of a cucumber; cut up one small pineapple or take a can of preserved pineapples and some sliced seedless oranges to garnish the whole, and pour into a bowl around one large lump of ice and serve in thin glassware.

CLARET AND SELTZER.

157.

Place a piece of ice in a long thin glass and fill with half claret and half syphon seltzer.

COLLINS.

158.

There are many kinds of Collins, viz., John Collins, which is made with Holland gin; Tom Collins with Tom gin; Whiskey Collins with the liquor designated etc., etc. A Collins, however, is nothing more or less than a fizz; but it is usually made as a very long drink. See Fizzes (*Recipe No. 50*), and John Collins (*Recipe No. 177*).

COOLERS.

159.

There are two popular drinks called coolers which have no other distinguishable title. One is made by mixing equal parts of milk and seltzer; and the other is simply a ginger ale lemonade or a lemonade made of ginger ale instead of water. It is customary for barkeepers to ask a customer which he prefers.

N. B.—Some years ago, the late William Remsen, a retired naval officer and a popular member of the Union Club, N. Y., introduced a beverage to the members of that swell organization which has since taken his name and is now known to all clubmen by the appellation of Remsen cooler. The following recipe is the correct thing and has never before appeared in print. Pare a lemon (a lime will not answer the purpose) as you would an apple, so the peel will resemble a corkscrew, place the rind in a long thin glass and pour over it a full jigger of Old Tom Cordial gin; with a bar-spoon now press the peel and stir it thoroughly so the liquor will be well flavored with the essence of the skin and fill the glass with plain soda off the ice. English soda is highly recommended for this drink.

160.

COPENHAGEN.

Place a teaspoonful of Tom and Jerry batter (*See Recipe No. 108*) in a mug or glass, add a dash of rum, fill with lemon soda, stir until dissolved and serve.

161.

DELIGHTS.

A delight is a mixture of equal parts of French ratafia and cognac served in a pony glass with ice water on the side.

N. B.—There are many delights which have been named after their originators; as Jake Sharpe's delight, Wintgen's delight, etc. But these beverages are only known to a few patrons of the houses which have tried in vain to popularize them. As this work contains only standard recipes, I do not feel justified in publishing directions for the compounding of drinks which possess only local reputations.

THE AUTHOR.

162.

DOG'S NOSE.

ENGLISH.

A mug or glass of porter dashed with Old Tom Cordial gin has been termed a Dog's Nose.

163.

EGG NOG.

Place a dessertspoonful of bar sugar in a large mixing-glass; add some fine ice, a raw egg, a jigger of cognac and a dash of St. Croix rum. Fill the glass with good milk, shake thoroughly, grate nutmeg over the top and serve with straws.

164.

EGG NOG.

ONE GALLON.

Dissolve eight tablespoonfuls of sugar in three quarts of milk in a punch bowl, to which add three-quarters of a bottle of cognac and one-quarter of a bottle of St. Croix rum; now beat the yolks of ten eggs until thin, and the whites until frothy; stir the yolks into the above mixture and lay the beaten whites carefully over the top. Sprinkle with nutmeg and serve as cold as possible without ice.

N. B.—By filling a syphon soda bottle with some of the above mixture and adding a cake of compressed yeast to it, an effervescent draught fit for the gods can be produced. After filling the bottle and adding the yeast, put it in a warm place for five or six hours and then remove it to a cool place for a few days before using, when enough gas will have generated in the bottle to cause it to flow like soda. This is a splendid thing for invalids.

MISCELLANEOUS DRINKS.

EGG NOG, SHERRY. 165.

Substitute sherry for cognac and St. Croix rum, and follow the directions in the two preceding recipes.

GIN AND BITTERS. 166.

Rinse the interior of a small bar glass with a dash of the desired brand of bitters (Bonnekamp is generally used with gin), hand the customer a bottle of Holland gin, allow him to help himself and serve ice water on the side.

GIN AND GUM. 167.

Place a little gum syrup in a small bar glass, hand the gin bottle and glass with a spoon to the customer, and serve ice water on the side.

GIN AND PINE. 168.

Into a decanter of good Holland gin place several splinters from a piece of green pine wood. When this drink is ordered, place the decanter at the customer's right and hand him a small bar glass containing a small piece of ice, allowing the gentleman to help himself. Always serve ice water on the side. Whiskey and brandy are also used with pine.

GIN AND SODA. 169.

Hand a long thin glass to the customer with the gin bottle at his right. After he has helped himself, fill the glass with cold syphon soda.

GIN AND TANSY. 170.

Fill a decanter with tansy leaves and cover them with good Holland gin. In a few days it will be ready to serve. When the bottle is empty refill with gin, and continue to do so until all the strength of the leaves has departed. Serve plain with water on the side.

GIN AND WORMWOOD. 171.

Made the same as Gin and Tansy with wormwood substituted for tansy.

MISCELLANEOUS DRINKS.

172. **GOLDEN SLIPPER.**

Half fill a sherry glass with yellow Chartreuse, on the top of which place the yolk of an egg and fill the glass with goldwasser.

173. **HALF AND HALF.**

A glass or mug containing half porter and half ale.

174. **HONEY AND PEACH.**

Place a teaspoonful of strained honey in a small bar glass, hand the customer the decanter of peach brandy, and, when he has helped himself, stir until the honey is dissolved and serve ice water on the side.

175. **ICEBERG.**

Fill a large mixing-glass with fine ice and add the juice of one lemon, a jigger of raspberry syrup and a jigger of California rum. Stir until enough ice dissolves to fill an ordinary punch glass, into which you then strain it, and after adding a little fruit serve with straws.

176. **IRISH HALF AND HALF.**

Half fill a large bar glass with whiskey, then fill the other half with whiskey (any kind of whiskey will do), hand the customer a bath tub, towels and soap and charge wholesale rates.

177. **JOHN COLLINS.**

Take the largest glass procurable and place a good size piece of ice in it. Set this in front of the customer with a bottle of Holland gin at his right hand so he can serve himself to the gin. Then take a large mixing-glass and put in it the juice of two lemons, a heaping tablespoonful of bar sugar, and dissolve this in part of a bottle of plain soda; pour into the large glass of gin and ice, fill up the glass with the balance of the plain soda, stir and serve. Many bartenders make a regular Gin Fizz and serve it for a John Collins; but this recipe is standard and is highly recommended as a morning bracer after a night of dissipation.

KNICKEBEIN.

178.

Break an egg carefully so as not to fracture the tender covering of the yolk. Place the white in a bowl or mixing-glass and softly lay the yolk in the bottom of a very small claret glass. Now nearly fill the glass containing the yolk with equal parts of benedictine, yellow Chartreuse, kummel and cognac (crème de vanille is sometimes added). No caution need be used to prevent the ingredients from mixing as in a pousse café; and the yolk of the egg must not be placed in the glass after any liqueur, as it should lay on the bottom. After these preparations have been completed, beat the white of the egg which you have in the bowl or mixing-glass until it becomes stiff, sweeten to taste with bar sugar and with a teaspoon place a heavy layer over the decoction which you have just prepared. Dash with Angostura bitters, sprinkle with a little ground cinnamon and serve.

KNICKEBEIN.

179.

DIRECTIONS FOR TAKING.

This celebrated Teutonic decoction is little known in America, and few bartenders have ever acquired the art of compounding one. It is an after-dinner drink, and, in order to be fully appreciated, it must be partaken of according to the following directions. Should the drinker not abide by these rules, the desired effect of the beverage will not be experienced. Therefore, the duty of the presiding mixologist is to thoroughly explain to the uninitiated the *modus operandi*, etc.

1. Pass the glass under the nose and inhale the flavor for about five seconds.
2. Hold the glass perpendicularly, open your mouth wide and suck the froth from off the top of the glass. Pause five seconds.
3. Point the lips and take one-third of the liquid contents of the glass without touching the yolk. Pause again for a few seconds.
4. Straighten the body, throw the head back, swallow the contents remaining in the glass and break the yolk in your mouth at the same time.

LA CREOLE.

180.

A RAINBOW POUSSE CAFÉ WITHOUT COGNAC.

Pour carefully into a sherry glass, so the colors will not mix, equal parts of the following ingredients in the order named: Raspberry syrup, maraschino, yellow Chartreuse and green Chartreuse. This beverage is very popular with the fair sex in some parts of the Southern states and West Indies.

181.

LAWN TENNIS COOLER.

A NEW AND POPULAR BEVERAGE.

Into a medium-size mixing-glass, place a tablespoonful of sugar, the juice of two limes, one raw egg and a jigger of cognac. Fill the glass with shaved ice, shake until the ice is all dissolved, pour into a large goblet, fill up with ginger ale, stir, decorate and serve with straws.

182.

MAITRANK OR MAY-WINE.

GERMAN.

This drink is called May-wine because it is made from a shrub or plant (waldmeister), which is only to be procured in or about the month of May. At all other seasons of the year it does not possess the necessary fragrance, and is therefore never used. Place a quantity of waldmeister leaves in a pitcher and cover them with good white wine of any brand, allowing it to stand for twenty-four hours; sweeten to taste, strain, bottle, cork tightly and lay the bottles down in a cool place. This wine can be used for punches, cobbler, coolers or for any purpose for which white wine is recommended.

183.

MONTANA.

This name has been applied to bottled Pousse Café which is kept in second-class bars, or in establishments where incompetent or lazy bartenders are employed.

184.

NEAT.

The word "neat" is used in Great Britain to denote plain or straight in connection with the ordering of any liquor, as whiskey neat, meaning whiskey straight, etc., etc.

185.

ORANGEADE.

Take twelve drachms of concentrated infusion of orange peel, twelve drachms diluted sulphuric acid, five fluid ounces of syrup of orange peel and two gallons of water. Mix well and bottle. This is an excellent summer drink and is a sure cure for diarrhoea.

PICK ME UP.

186.

TO SOBER A DRUNK.

Place a jigger of Worcestershire sauce, a piece of ice and the juice of one lemon in a large glass and fill it with syphon soda or seltzer.

A strong cup of black coffee with a little salt in it is also a good Pick Me Up.

PONY.

187.

The word pony means small and is used in the ordering of a very small glass of any liquor. A pony glass is the smallest glass that is made; so, should you wish to serve a pony of any liquor, fill the smallest glass in the house with the desired brand and serve with ice water on the side. A neat way of serving a pony of any liquor is to place a small piece of ice in a small bar glass and pour the liquor from the pony glass over it, or place the small bar glass on the bar in front of the customer so he can have it as he desires.

PORT WINE NEGUS.

188.

Dissolve a teaspoonful of sugar in a little water in a small bar glass; add a piece of ice and a jigger of port wine and serve without decoration or spice.

POUSSE CAFÉ.

189.

FOUR-COLORED RAINBOW.

Pour the following ingredients carefully down the side of a small sherry glass and do not allow the different colors to mix: One-fourth glassful of raspberry syrup, crème de vanille or crème de cassis, one-fourth glassful of maraschino, one-fourth glassful of Chartreuse and one-fourth glassful of cognac. Serve ice water on the side.

POUSSE CAFÉ.

190.

NEW ORLEANS STYLE.

Make a Pousse Café from the preceding recipe and set the cognac afire before serving, allowing the fusil oil to consume; then immerse a piece of ice with a fruit or sugar tongs into the cognac to cool it and serve with ice water on the side.

191.

POUSSE L'AMOUR.

Pour a little crème de vanille into a sherry glass, lay the yolk of an egg carefully on top of this, cover the yolk with maraschino and fill the glass with cognac.

192.

QUEEN CHARLOTTE.

Place a piece of ice, a jigger of raspberry syrup and a dash of orgeat syrup in a large glass. Fill the glass with lemon soda or sweet soda and a little lemon juice, stir and serve.

193.

RAFAEL NECTAR.

Into a large bar glass place a tablespoonful of sugar, two jiggers of sherry and a raw egg. Fill the glass with fine ice, shake thoroughly and serve in large goblet with fruits and straws.

194.

RHINE WINE AND SELTZER.

Half fill a medium-size cut bar glass with cold Rhine wine and fill up the balance of the glass with syphon seltzer off the ice.

195.

ROCK AND RYE.

Into a decanter of good rye whiskey place three or four sticks of rock candy and set it away for a few days before using. Serve the same as any plain liquor.

196.

RUM AND GUM.

Pour about a teaspoonful of gum syrup into a small bar glass, place a toddy spoon in the glass, hand the customer a bottle of Jamaica rum so he can help himself, and serve ice water on the side.

SCAFFA.

197.

Fill a sherry glass with half maraschino and half cognac, add a few drops of Angostura bitters and serve ice water on the side. This drink is usually called a Brandy Scaffa.

SEIDLITZ POWDERS.

198.

These powders should be kept in every well-regulated bar. They are harmless when used properly, and are invaluable for settling a disordered stomach. Place twenty-five grains of carbonate of soda and three drachms of Rochelle salts in a blue paper and twenty grains of tartaric acid in a white paper and administer in the following manner. Dissolve the contents of the blue paper in a small bar glass of water and the powder contained in the white paper in a very large glass with a little water in the bottom. Now pour the contents of the small glass into the larger one and drink immediately while effervescing.

SETTLER.

199.

A name sometimes given to a mixture of equal parts of claret and plain soda.

SHANDY GAFF.

200.

This drink is a mixture of equal parts of ginger ale and ale, but lager beer can be substituted for ale if preferred.

SHERRY AND EGG.

201.

Dash a little sherry wine into a small bar glass; break an egg into another glass and if good throw in and place in front of customer with sherry bottle at his right so he can help himself. The idea of putting a little wine in the glass before placing the egg in was conceived for the purpose of preventing the egg from sticking to the glass while drinking.

•

202. SODA AND SYRUP.

Place a piece of ice and a dash of raspberry syrup in a medium-size glass; fill up with sweet soda and serve after stirring.

203. STARS AND STRIPES.

The English name for a *pousse café*. The idea of calling this popular French beverage by such a name originated once when a wag became intoxicated by an over-indulgence in these enticing mixtures, and declared that before partaking he had observed the most beautiful stripes, but afterward all he could see was stars. Hence the name "Stars and Stripes." (*See Recipe No. 189.*)

204. STICK.

A stick is a dash of whiskey added to any temperance drink.

205. STONE FENCE.

Into a small bar glass place a piece of ice and a jigger of whiskey, fill the glass with good cider and serve.

206. STONE WALL.

Another name for a Stone Fence.

207. SUNRISE.

Half fill a sherry glass with lime juice cordial and then carefully pour good cognac down the side of the glass until full. The cognac is set on fire before serving to destroy the fusil oil in the liquor. Always be careful not to allow the ingredients to run together, keeping the brandy on top.

THE BOY.

208.

An English term for champagne.

TOM COLLINS.

209.

Make the same as John Collins with Old Tom gin substituted for Holland gin. (*See Recipe No. 177.*)

TROTTER.

210.

A name sometimes given to a small milk punch. (*See Recipe No. 236.*)

UNFERMENTED WINE.

211.

FOR CHURCH USE.

Pick from the stems and weigh any quantity of grapes and cook with very little water, add one quarter as much sugar as you have used grapes and allow the mixture to simmer until the seeds, pulp and skins are all separated, strain through a muslin bag, bottle while warm and cork tightly.

VERMOUTH, GUM AND APOLLINARIS.

212.

A GREAT FRENCH BEVERAGE.

Into a long thin glass place a piece of ice, gum syrup to taste and a jigger of vermouth. Fill the glass with Apollinaris, stir and serve.

WATERMELON À LA MODE.

213.

THE LATEST FAD IN SWELLDOM.

Make a little less than a quart of good strong brandy punch, cut a hole in the end of a large ripe watermelon and save the piece which has been cut out; pour the punch slowly into the aperture until the melon has absorbed it all (it usually takes thirty minutes to accomplish this), replace the plug, ice the melon thoroughly, and when ready to serve cut into slices and serve on plates with knives, forks and napkins.

214. WHISKEY AND BITTERS.

Put a dash of Angostura bitters in a small bar glass and then throw it out, leaving only a little moisture in the glass. Hand a decanter or bottle of whiskey to the customer, allowing him to help himself, and serve ice water on the side.

215. WHISKEY AND GUM.

Place a dash of gum syrup in a small bar glass containing a spoon, hand the customer the whiskey and serve ice water on the side after stirring the drink.

216. WHISKEY AND SODA OR SELTZER.

Place a piece of ice in a long thin glass, hand the customer the desired liquor, and after he has helped himself fill the glass with syphon soda or seltzer.

217. WHISKEY AND SUGAR.

See Whiskey Toddy (*Recipe No. 304*).

218. WHITE SATIN.

An old British appellation for gin.

219. WHITE STRIPE.

FOR SORE THROAT.

Into a medium-size glass place about a tablespoonful of molasses, the juice of a large lemon and a piece of ice; fill the glass with white wine (any brand), stir until the molasses dissolves, and serve.

PUNCHES

220.

APPLE PUNCH.

221.

Lay alternately in a large punch bowl slices of apples and lemons and strew each layer with powdered sugar. When the bowl is half full, pour a bottle of claret over the apples and lemons, cover with a clean cloth and allow it to stand five or six hours, after which strain through a muslin bag, ice and serve in cut glassware.

ARRACK PUNCH.

222.

Into a punch glass place a piece of ice and pour over it three-quarters jiggerful of Batavia arrack and one-quarter jiggerful of Jamaica rum. Then into a small mixing-glass place a large spoonful of sugar (as this punch needs much sweetening), the juice of one lime and a little Apollinaris. Stir until dissolved, pour into prepared punch glass, add a dash of California champagne, stir again, decorate and serve.

ARRACK PUNCH FOR A PARTY.

223.

ONE-HALF GALLON.

Cut six lemons into thin slices and remove the seeds. Place the slices into a vessel containing one quart of old Arrack and steep for five or six hours. Then carefully remove the slices without squeezing them. Then take about a pound of crushed sugar and boil in one quart of water, add the hot solution to the Arrack and let it cool. When you wish to serve this renowned beverage, place it in a punch bowl with a large piece of ice and decorate with fruits in season. A flavor of Jamaica rum is sometimes added.

224.

BRANDY PUNCH.

Into a stem glass place a piece of ice, over which pour a jigger of cognac. Then take a small mixing-glass, into which place a large spoonful of sugar, the juice of one lemon, a dash of Curaçoa and a very little Apollinaris or plain water. Stir thoroughly, pour into the stem glass containing the ice and liquor, stir again, add a little fruit and serve. A dash of champagne is usually added.

225.

BRANDY PUNCH.

FOR A PARTY OF TEN.

Into a large punch bowl place about one pound of sugar, three jiggerfuls of gum, one jiggerful of raspberry syrup, one jiggerful of Curaçoa, one jiggerful of maraschino and the juice of twenty limes. Pour in just enough Apollinaris to make the mixture dissolve, add a bottle and a half of good cognac and flavor with a wineglassful of Jamaica rum. Should the party be composed of any ladies, in place of a rum flavor a pint of champagne would be preferable. Place a large piece of ice in the bowl and decorate with fruits.

226.

CHAMPAGNE PUNCH.

Into a punch bowl place five tablespoonfuls of sugar, the juice of ten lemons, a jigger of Curaçoa and a pony of maraschino. Dissolve in a small bottle of plain soda, add a quart of the desired brand of champagne and a large piece of ice. Decorate with fruits. Jamaica rum or good cognac can be used for a flavor. Either must be used, as champagne itself does not possess body enough to make a good punch.

227.

CLARET PUNCH.

Place one tablespoonful of sugar and the juice of one lemon in a large mixing-glass. Fill the glass with fine ice and pour in as much claret as the glass will hold. Shake well, ornament with fruits and serve with straws.

PUNCHES.

CLARET PUNCH.

228.

FOR A PARTY.

Place six tablespoonfuls of sugar in a punch bowl and add the juice of six lemons and a small bottle of plain soda. Stir until dissolved, add a jigger of crème de vanille and one and one-half bottles of good claret. Stir, decorate, ice and serve in thin glassware. A pint of champagne poured over this punch just before serving is a great benefit to the flavor and adds life to it which it would not otherwise possess.

CREAM PUNCH.

229.

Into a large mixing-glass place a dessertspoonful of sugar, a jigger of cognac, a dash of St. Croix rum and some fine ice. Fill the glass with fresh cream, shake thoroughly, grate nutmeg over the top and serve with straws.

DRY PUNCH.

230.

Into a punch bowl place eight tablespoonfuls of sugar, the juice of ten limes, a jiggerful of Curaçoa and a quart of tea. Stir until the sugar is dissolved, add a bottle of cognac and a large piece of ice; decorate and serve in thin glassware. This punch may be bottled and kept for any length of time, and is said to improve with age. It is a very strong beverage, however; and a bottle of Apollinaris should be served with this punch (on the side), so that any member of the party who does not desire to partake of such an intoxicating mixture can dilute his drink with the queen of table waters.

FIRST INFT. REGT., N. G. C., PUNCH.

231.

Into a large punch bowl place one pound of sugar and the fresh juice of twenty limes. Add two jiggers of crème de vanille, one jigger of maraschino, one jigger of Curaçoa and a quart of Apollinaris. Stir until the sugar is thoroughly dissolved. Add two quarts of champagne and a half bottle of good cognac. Stir well, place a large lump of ice in the bowl and decorate with sliced pineapples, sliced seedless oranges, a few strawberries and a few sprigs of mint. Serve in thin glassware.

232. GOTHIC PUNCH.

Place twelve tablespoonfuls of bar sugar in a large punch bowl with the juice of a dozen limes. Dissolve in two bottles of Catawba wine and one bottle of good claret. Add a quart of champagne, a large lump of ice and some sliced pineapple. Serve in thin glassware.

233. HUB PUNCH, BOSTON STYLE.

Into a small cut bar glass place about two teaspoonfuls of gum syrup, the juice of one lemon, a piece of ice, a jigger of cognac and a dash of St. Croix rum. Stir, decorate and serve.

234. IMPERIAL PUNCH.

The proper way to brew this celebrated California beverage is to make it without the use of any water, and to use half champagne and half whiskey or brandy. Of course this makes a very rich and expensive drink as well as a very intoxicating one, but the following recipe is the correct thing, and has never been published before. Into a large punch goblet place two jiggers of whiskey or cognac (whichever the customer prefers) and a piece of ice about as large as an egg. Then place a tablespoonful of sugar in a medium-size mixing-glass with the juice of two limes. Add a little dash of Curaçoa and as much champagne as you have used liquor. Stir thoroughly and pour into the goblet of liquor and ice. Stir again and serve without decorations of any kind.

235. MAITRANK OR MAY-WINE PUNCH.

Into a large punch bowl place four tablespoonfuls of sugar, a jigger of marschino, a jigger of Curaçoa, the juice of five lemons and a bottle of prepared May-wine (see Maitrank or May-wine). Stir until sugar is all dissolved, and place a large piece of ice in the bowl. When ready to serve add one-half syphon of seltzer and decorate with fruits. Serve in thin glassware.

236. MILK PUNCH.

Into a large mixing-glass place a dessertspoonful of sugar, a jigger of cognac and a dash of St. Croix rum, and fill the balance of the glass with good milk. Then place some cracked ice in a large shaker, shake well, pour into very large cut glass, grate nutmeg on top, and serve with straws.

MOUNTAINEER.

237.

A name sometimes given to a Milk Punch which has been frozen in the mixing-glass in the following manner: Make a milk punch according to the preceding recipe, with the ice in the glass. Shake well, stand the glass on the bar without removing the shaker for a few moments, and upon taking off the shaker a frosted foam will be seen on the top of the punch. Grate nutmeg over this and serve with straws.

NATIONAL GUARD PUNCH.

238.

See First Inf't. Reg't., N. G. C., Punch (*Recipe No. 231*).

ORCHARD PUNCH.

239.

Make the same as Orgeat Punch, substituting orchard syrup for orgeat. (*See Recipe No. 240*.)

ORGEAT PUNCH.

240.

Into a medium-size mixing-glass place a tablespoonful of orgeat syrup, the juice of two limes and a jigger of good cognac. Fill the glass with fine ice and stir well, pour into punch glass, dash with port wine, decorate with fruit and serve with straws.

PACIFIC-UNION CLUB PUNCH.

241.

FOR A PARTY OF TEN.

Into a large punch-bowl place ten tablespoonfuls of sugar and the fresh juice of ten good Sicily lemons. Add two jiggers of Curaçoa and two jiggers of crème de vanille, all dissolved in one quart of Apollinaris. Add two quarts of champagne and one bottle of Hennessy brandy. Place a large piece of ice in the bowl, decorate and serve in thin glassware.

242.

REGENTS PUNCH.

FOR A LARGE PARTY.

Into a large punch-bowl place eight tablespoonfuls of sugar, the juice of ten lemons dissolved in a syphon of seltzer. Add three bottles of champagne, one of white wine (any brand), a wineglassful of Curaçoa, a bottle of cognac and dash with Jamaica rum. Stir well, decorate, ice and serve.

243.

ROAD HOUSE PUNCH.

Heat a bottle of Burgundy in a hot-water urn. Add a little sugar and spice to taste, and serve in small silver covered mugs.

244.

ROMAN PUNCH.

Into a medium-size bar glass place a spoonful of sugar, the juice of one lemon, a teaspoonful of raspberry syrup, a teaspoonful of Curaçoa and a jigger of cognac. Fill the glass with fine ice, stir well and strain into punch glass, dash with Jamaica rum and serve.

245.

RUM PUNCH.

See St. Croix Punch (*Recipe No. 248*), and use the desired brand of rum in place of St. Croix.

246.

SAUTERNE PUNCH.

Make the same as Claret Punch, substituting Sauterne for claret. A squirt of syphon seltzer improves this drink considerably. (*See Recipes Nos. 227-28.*)

247.

SHERRY PUNCH.

Nearly fill a large mixing-glass with fine ice, add a spoonful of sugar, the juice of half a lime and a wineglassful of sherry. Shake well, strain into punch glass, decorate and serve.

ST. CROIX RUM PUNCH.

248.

Into a punch glass place a piece of ice and a jigger of St. Croix rum. Then place a spoonful of sugar and the juice of two limes in a medium-size mixing-glass, and dissolve in a little plain soda or seltzer (a dash of Curaçoa is usually added). Pour into the punch glass containing the rum and ice. Stir, decorate and serve.

TIP-TOP PUNCH.

249.

This term has been applied to many different decoctions by as many aspiring bartenders; but no beverage with this name ever became popular. Should any crank desire to have a tip-top punch brewed, by using any standard recipe for punches in this book his desires will be gratified, and he will declare his punch to be tip-top.

VANILLA CREAM PUNCH.

250.

Place a heaping teaspoonful of sugar in a large mixing-glass; add a jigger of cognac, a dash of St. Croix rum, and a pony of crème de vanille. Fill the glass with good cream, place some cracked ice in a large shaker, pour the contents of the mixing-glass into the shaker, shake well and serve in large cut glass with straws.

VANILLA PUNCH.

251.

Place a piece of ice and a jigger of cognac in a punch glass; then take a medium-size mixing-glass, and place in it a small spoonful of sugar, the juice of two limes and a pony of crème de vanille, dissolved in a little seltzer or plain water. Mix and pour over the cognac in the punch glass, decorate and serve.

VICTORIA PUNCH.

252.

This punch, like the Tip-top Punch, exists only in the imagination of a few over-ambitious bartenders; therefore, a recipe for making it is omitted, as only standard beverages are published herein.

253. **WELLINGTON PUNCH.**

This is a Brandy Punch flavored with a dash of strawberry syrup.

254. **WHISKEY PUNCH.**

Make the same as Brandy Punch, with whiskey substituted for cognac.
(See Recipes Nos. 224-25.)

255. **WHITE WINE PUNCH.**

Make the same as Claret Punch, with the desired brand of white wine substituted for claret. (See Recipes Nos. 227-28.)

N. B.—A little effervescent water added to any white wine punch improves it greatly.

**SANGAREES, COLD**

256.

ALE SANGAREE.

257.

Place a teaspoonful of sugar in a suitable glass and dissolve it in a jigger of water. Fill the glass with ale, grate nutmeg on top and serve.

BRANDY SANGAREE.

258.

Fill a large bar glass with fine ice, add a jigger of cognac and a spoonful of sugar, shake thoroughly, strain into a small cut glass, grate nutmeg on top and serve.

PORTER SANGAREE OR PORTEREE.

259.

The same as Ale Sangaree, with Dublin stout substituted for ale. (*See Recipe No. 257.*)

PORT WINE SANGAREE, COLD.

260.

Fill a medium-size mixing glass with fine ice, a spoonful of sugar and a wineglassful of port wine. Shake well, serve in thin glass with straws and grate nutmeg over the top.

WHISKEY SANGAREE.

261.

Make the same as Brandy Sangaree, with whiskey substituted for brandy. (*See Recipe No. 258.*)

WHITE WINE SANGAREE.

262.

Make the same as Port Wine Sangaree, with the desired brand of white wine substituted for port. (*See Recipe No. 260.*)

263.

SHAKES

264.

BRANDY SHAKE.

Into a small mixing-glass place a large spoonful of sugar and the juice of two limes. Fill the glass with fine ice and pour in a jigger of good cognac. Shake thoroughly, strain into small cut glass and serve.

265.

GIN SHAKE.

Make the same as Brandy Shake, with the desired brand of liquor substituted for cognac.

266.

MILK SHAKE.

Into a large mixing-glass place a spoonful of sugar and any kind of syrup which the customer prefers. Add a lump of ice and fill the glass with good milk. Shake well and serve.

267.

RUM SHAKE.

Make the same as Brandy Shake, with Jamaica rum substituted for brandy.

268.

WHISKEY SHAKE.

Make the same as Brandy Shake, with whiskey substituted for brandy.

SHERBETS

269.

ORANGE SHERBET.

270.

Dissolve one pound of sugar in two pints of water, and add the juice of two or three lemons and ten oranges. Strain through a muslin bag, and freeze in an ice-cream freezer.

PINEAPPLE SHERBET.

271.

Mix a pint of grated pineapple with a quart of water, the juice of three or four limes, and the whites of four eggs well beaten. Sweeten to taste, and freeze in ice-cream freezer.

TURKISH HAREM SHERBET.

272.

Place two or three slices of quince in a goblet of fine ice, and fill the glass with Vin de Rose. Decorate with pomegranate, and serve with straws. Quince essence may be substituted for sliced quince.

273.

SHRUBS

274.

BRANDY SHRUB.

Into a vessel containing two quarts of cognac, place the juice of six good Sicily lemons and the peel of three. Cover for a few days, and add one quart of sherry and one and a half pounds of sugar. Strain through a jelly bag, and then bottle.

275.

CHERRY SHRUB.

Place any quantity of cherries in an earthen pot, and place this pot in a large kettle of water. Cook over slow fire until all the juice is subtracted from the fruit; strain through muslin bag, sweeten to taste, and bottle with a glass of any kind of liquor in each bottle.

276.

CURRANT SHRUB.

To one pint of currant juice add sweetening to taste. Boil gently for five or six minutes, skimming the while. When luke-warm add a wineglassful of liquor (whichever kind you prefer), and bottle.

277.

RUM SHRUB.

ENGLISH STYLE.

To one quart of the juice of sour oranges add sugar to taste and one quart of Jamaica rum. This drink must be put away in a cool place for some weeks before using, as it improves with age.

278.

SHRUBS OF ALL KINDS

May be properly prepared by substituting one liquor or one kind of fruit for another, and following the directions in the preceding recipes.

SLINGS, COLD

279.

BRANDY SLING.

280.

Dissolve a cube of sugar in a little water, and add a jigger of cognac and a piece of ice. Stir, grate nutmeg over the top, add a piece of lemon peel, and serve.

GIN SLING.

281.

Make the same as Brandy Sling, with Holland gin substituted for brandy.

RUM SLING.

282.

Make the same as Brandy Sling, with Jamaica rum substituted for brandy.

WHISKEY SLING.

283.

Make the same as Brandy Sling, with whiskey substituted for brandy.

284.

❖ SMASHES ❖

285.

BRANDY SMASH.

A small Mint Julep, with the rum flavor omitted. (*See Juleps, Recipes Nos. 114-19.*)

286.

GIN SMASH.

A small Gin Julep. (*See Juleps.*)

287.

RUM SMASH.

A small Rum Julep. (*See Juleps.*)

288.

WHISKEY SMASH.

A small Whiskey Julep, with the rum flavor omitted. (*See Juleps.*)

♣ **SOURS** ♣

289.

BRANDY SOUR.

290.

In the West it is customary to put a little lime juice in a small bar glass with a spoon; this is placed in front of the customer with the brandy bottle at his right hand, so he can help himself, and ice water is served on the side.

This is not a Brandy Sour, however, as the following directions for making that celebrated Eastern beverage will show:

Dissolve in a medium-size mixing-glass one dessertspoonful of sugar, the juice of one good lemon, a squirt of syphon seltzer, and a jigger of the desired liquor. Nearly fill the glass with cracked ice, stir and strain into punch glass, decorate and serve.

GIN SOUR.

291.

Make the same as Brandy Sour with Holland gin substituted for brandy.

RUM SOUR.

292.

Make the same as Brandy Sour, with Jamaica rum substituted for brandy.

ST. CROIX SOUR.

293.

Make the same as Brandy Sour, with St. Croix rum substituted for brandy.

WHISKEY SOUR.

294.

Make the same as Brandy Sour, with whiskey substituted for brandy.

295.

STRAIGHTS

296.

BRANDY STRAIGHT.

Set a small bar glass on the bar in front of a customer with the brandy bottle at his right, allowing him to help himself. Serve ice water on the side.

297.

GIN STRAIGHT.

The same as Brandy Straight with Holland gin substituted for brandy.

298.

RUM STRAIGHT.

The same as Brandy Straight, with Jamaica rum substituted for brandy.

299.

WHISKEY STRAIGHT.

The same as Brandy Straight, with the desired brand of liquor substituted for brandy.

**TODDIES, COLD**

300.

BRANDY TODDY.

301.

Place half a teaspoonful of sugar in a small bar glass, and dissolve it in about two teaspoonfuls of water; leave a small spoon in the glass and hand the customer a bottle of cognac, allowing him to help himself. Serve ice water on the side.

GIN TODDY.

302.

Make the same as Brandy Toddy, with Holland Gin substituted for cognac.

SOFT TODDY.

*

303.

(CALIFORNIA STYLE.)

Cut the peel off half a lemon (the skin of a lime should never be used), and place it in a small mixing-glass with a dessertspoonful of sugar and a little water; mash the lemon peel with a muddler until all the extract of the skin has been absorbed by the sugar and water. Then place a small piece of ice in a small cut bar glass, and pour a jigger of whiskey over it; then add the lemon-peel, sugar and water, grate nutmeg over the top and serve.

WHISKEY TODDY.

304.

Make the same as Brandy Toddy, with whiskey substituted for brandy.

Valuable Secrets for Liquor Dealers.

306. ADULTERATION AND AGEING OF WHISKEY.

The following recipe is for a simple process, by which new whiskey may be made to appear and taste like old. To each barrel of whiskey add three-quarters of a gallon of prune juice (a concoction made of steamed prunes, blood, spirits and sugar); it will then have the color and flavor of three-year-old whiskey; more may be added in proper proportion to any age desired up to ten years.

307.

ALCOHOLIZING OF WINES.

Alcohol added to weak or vapid wines will increase their strength and assist in their preservation. It can be added to port in the ratio of one part alcohol to two parts port; to sherry, one part alcohol to seven parts sherry; and to other wines in proportion to the strength of their flavor.

308.

BATAVIA ARRACK.

To twelve gallons of pale rum add two ounces of flowers of Benzoin, half an ounce of balsam of Tolu, and one ounce of sliced pineapples. Digest with an occasional agitation for one month, at the end of which time add half a pint of milk. Agitate for ten minutes, and rack off in a week.

BEAD FOR LIQUOR.

309.

The best bead is orange-flower water (oil of neroli), one drop to each gallon.

Another method: For every ten gallons of spirit add forty drops of sulphuric acid and sixty drops of olive oil previously mixed in a glass vessel. This must be used immediately.

Another good recipe: Take one ounce of the purest oil of sweet almonds, and one ounce of sulphuric acid; put them in a stone mortar and add, by degrees, two ounces of white lump sugar, rubbing it well with the pestle until it becomes a paste; then add small quantities of spirits of wine until it becomes a liquid. This quantity is sufficient for one hundred gallons. The first recipe is the best, however.

BLACKBERRY BRANDY.

310.

Macerate a pint of fine ripe blackberries (mashed) in one gallon of cognac for one week. Sweeten to taste, filter and bottle. Any kind of berries can be treated in the same manner.

BOTTLED SODA WATER WITHOUT A MACHINE. 311.

Sweeten a gallon of water to taste, and put it into soda bottles. Into each bottle drop half a drachm of bi-carbonate of soda and half a drachm of citric acid (crystallized). Cork immediately, and tie the corks securely.

BOTTLING OF WINES.

312.

To bottle wine successfully, great pains must be taken to have the bottles and corks scrupulously clean, and to carefully refrain from jarring the barrel, or agitating its contents, so the sediment will not be disturbed. After bottling, lay the bottles down in a cool place. (*See Corking, Recipe No. 328.*)

BOURBON WHISKEY.

313.

To one hundred gallons of proof spirit, add four ounces of pear oil, two ounces of pelargonif ether, thirteen drachms of oil of wintergreen (dissolved in the ether), and one gallon of wine vinegar. Color with burnt sugar.

314.

BRANDY.

To forty gallons of pure or neutral spirits, add one pound of crude tartar dissolved in one gallon of hot water; acetic ether one-quarter pint; bruised raisins, six pounds; tincture of kino, two ounces, and sugar, three pounds. Color with burnt sugar. Let it stand two weeks, and then draw it off.

315.

BRANDY BITTERS.

Bruised gentian, eight ounces; orange peel, five ounces; cardamoms, three ounces; cassia, one ounce; cochineal, one-quarter ounce; and spirit, one gallon. Digest for one week, then decant the clear, and pour five pints of water on the dregs. Digest for one week longer, decant, and mix the two tinctures together.

316.

BRITISH CHAMPAGNE.

Loaf sugar, fifty-six pounds; brown sugar (pale), forty-eight pounds; warm water, forty-five gallons; white tartar, four ounces. Mix, and at a proper temperature add one quart of yeast, five gallons of sweet cider, six or seven bruised bitter almonds, one gallon of pale spirit, and half an ounce of orris powder.

317.

BRITISH COGNAC BRANDY.

One hundred gallons of clean spirit (seventeen up), ten gallons of highly flavored cognac, one and a half ounces of oil of cassia, half an ounce of oil of bitter almonds, ten ounces of powdered catechu, sixteen ounces of cream of tartar (dissolved), three pounds of Beaufoy's concentrated acetic acid, and about a quart of sugar coloring. Put the whole into a fresh-emptied brandy-piece, and let them remain about a week with a little agitation occasionally, then let them stand to settle.

CASKINESS.

318.

Caskiness is caused by wine being put into a dirty cask or into one that has been unused for a long time. It can be removed by vigorously agitating the wine for some time with a little sweet or almond oil. The cause of the bad taste is the presence of an essential oil, which the fixed oil combines with and carries to the surface, from whence it can be skimmed off or the wine be drawn off beneath it. A little coarsely powdered, freshly burnt charcoal, or some slices of bread toasted black, or bruised mustard seed, sometimes effect the removal of the objectionable taste.

CEMENT FOR BOTTLES.

319.

Melt together one-quarter pound of resin and a couple of ounces of bees-wax; when it froths, stir it with a tallow candle, and, as soon as it melts, dip the mouths of the corked bottles into it.

CHEAP BEER.

320.

Fill a boiler with the green shells of peas, pour on water till it rises half an inch above the shells, and simmer for three hours. Strain off the liquor, and add a strong decoction of the wood sage or the hop, so as to render it pleasantly bitter, then ferment in the usual manner. The wood sage is the best substitute for hops, and being free from any anodyne property is entitled to a preference. By boiling a fresh quantity of shells in the decoction before it becomes cold, it may be so thoroughly impregnated with saccharine matter as to afford a liquor, when fermented, as strong as ale.

CIDER CHAMPAGNE.

321.

Good cider, twenty gallons; spirit, one gallon; honey or sugar, six pounds. Mix and let them rest for a fortnight; then fine with skimmed milk, one quart. Bottle well and tie corks securely, as after being bottled for some time it becomes very lively.

Another good recipe: Good pale vinous cider, 1 hogshead; proof spirit (pale), 3 gallons; honey or sugar, 14 lbs. Mix, and let them remain together in a temperate situation for one month; then add orange-flower water, 1 quart; and fine it down with skimmed milk, $\frac{1}{2}$ a gallon. This will be very pale; and a similar article, when bottled in champagne bottles, silvered and labeled, has been often sold to the ignorant for Champagne. It opens very brisk, if managed properly.

322.

CIDER—TO KEEP SWEET.

1st. By putting into the barrel before the cider has begun to work about a half pint of whole fresh mustard seed tied up in a coarse muslin bag. 2d. By burning a little sulphur or sulphur match in the barrel previous to putting in the cider. 3d. By the use of $\frac{1}{4}$ of an ounce of the bi-sulphite of lime to the barrel. This article is the preserving powder sold at rather a high price by various firms.

323

CIDER WITHOUT APPLES.

To each gallon of cold water put one pound common sugar, one-half ounce tartaric acid, one tablespoonful of yeast. Shake well, make in the evening and it will be fit for use next day. I make in a keg a few gallons at a time, leaving a few quarts to make into next time, not using yeast again until the keg needs rinsing. If it gets a little sour make a little more into it, or put as much water with it as there is cider, and put it with the vinegar. If it is desired to bottle this cider by manufacturers of small drinks, you will proceed as follows: Put in a barrel five gallons hot water, thirty pounds brown sugar, three-quarters pound tartaric acid, twenty-five gallons cold water, three pints of hop or brewers' yeast worked into paste with three-quarters pound flour; and one pint water will be required in making this paste. Put all together in a barrel, which it will fill, and let it work twenty-four hours,—the yeast running out at the bung all the time by putting in a little occasionally to keep it full. Then bottle, putting in two or three broken raisins in each bottle, and it will nearly equal champagne.

324:

CLARIFYING OF WINES.

To each gallon of wine one ounce of pure strained honey should be used. Take as many ounces of honey as there are gallons of wine to be clarified; heat to nearly a boiling point with some of the wine, and then allow the blend to cool before adding it to the wine. Agitate the barrel well, and then let it stand for at least one month, after which the wine should be drawn off very carefully.

325.

COGNAC.

To every ten gallons of pure spirits add two quarts of New England rum or one quart of Jamaica rum, and from thirty to forty drops of oil cognac put in half a pint of alcohol. Color with sugar coloring.

COLORING.

326.

Place two pounds of crushed or lump sugar into a kettle that will hold four or five quarts with half a tumbler of water. Boil until it is black, then take it off the fire, and cool it by pouring in cold water, stirring the while.

CORDIAL GIN.

327.

Oil of bitter almonds, vitriol, turpentine and juniper, one-half drachm each; kill the oils in spirits of wine; fifteen gallons of clean, rectified proof spirits, to which add one drachm of coriander seeds, one drachm of pulverized orris root, one-half pint of elder-flower water, with ten pounds of sugar, and five gallons of water or liquor.

CORKING.

328.

Before using corks be sure to have them clean. To drive a large cork into a small bottle neck, or a silver-topped patent cork, soak them thoroughly in boiling water, when they will become soft and pliable. A wooden cork-driver and mallet are used for driving them into bottles. When corking wine, always dip each cork separately in cognac just before driving it into the bottle

CRÈME DE MËNTHÉ.

329.

Macerate for a couple of days, in one gallon of alcohol, four pounds of peppermint leaves and the skins of a dozen lemons. Strain, add three gallons of water, and sweeten to taste.

CURE FOR DRUNKENNESS.

330.

Spirit of nutmeg, one drachm; peppermint water, eleven drachms; sulphate of iron, five grains; magnesia, ten grains. Twice a day.

This preparation acts as a tonic and stimulant, and so partially supplies the place of the accustomed liquor, and prevents that absolute physical and moral prostration that follows a sudden breaking off from the use of stimulating drinks.

Captain John Vine Hall, Commander of the famous steamship *Great Eastern*, was cured of habitual intoxication by using this recipe, and published the fact for the benefit of humanity in the English press some years ago.

331.

DAMIANA BITTERS.

Macerate for fourteen days any quantity of Damiana root in just enough alcohol to cover them, reduce to any desired strength with water, flavor with cardamon seed, clarify and bottle.

332.

DECANTING.

When decanting any wine or liquor, great care should be observed in preventing any sediment or crust from entering the decanter. A good plan is to filter through filtering paper or fine cambric, and not to drain too closely.

333. DUTIES ON FOREIGN WINES, LIQUORS, ETC.

(TARIFF.)

1897.

SCHEDULE H.

SPIRITS.

	<i>Rate.</i>
Anhydrous alcohol, per gallon.....	\$2 25
Brandy and spirits, distilled, per gallon.....	2 25

Each and every gauge or wine gallon of measurement shall be counted as at least one proof gallon, and the standard for determining the proof of brandy and other spirits or liquors of any kind imported shall be the same as that which is defined in the laws relating to internal revenue; but any brandy or other spirituous liquors, imported in casks of less capacity than fourteen gallons, shall be forfeited to the United States; provided, that it shall be lawful for the Secretary of the Treasury, in his discretion, to authorize the ascertainment of the proof of wines, cordials or other liquors, by distillation or otherwise, in case where it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.

On all compounds or preparations of which distilled spirits are a component part of chief value, not specially provided for in this Act, there shall be levied a duty not less than that imposed upon distilled spirits.

Cordials, liquors, arrack, absinthe, kirschwasser, ratafia, and other spirituous beverages or bitters of all kinds containing spirits, per gallon..... *Rate.* \$2 50

No lower rate or amount of duty shall be levied, collected and paid on brandy, spirits and other spirituous beverages than that fixed by law for the description of first proof; but it shall be increased in proportion for any greater strength than the strength of the first proof; and all imitations of brandy or spirits or wines imported by any names whatever shall be subject to the highest rate of duty provided for the genuine articles respectively intended to be represented, and in no case less than **\$1.50** per gallon.

VALUABLE SECRETS FOR LIQUOR DEALERS.

Bay rum or bay water of first proof and in proportion for any greater strength than first proof, per gallon	<i>Rate.</i> \$1 50
---	------------------------

WINES.

Champagnes and sparkling wines in bottles from 1 pint to 1 quart, per dozen	<i>New Rate.</i> \$8 00
One-half pint to 1 pint, per dozen	4 00
One-half pint or less, per dozen	2 00
More than 1 quart, in addition, on quantity in excess, per gallon, (no separate duty on bottles)	2 50
Still wines in casks, per gallon. If containing 14 per cent. or less of absolute alcohol, per gallon	40
If containing more than 14 per cent. absolute alcohol, per gallon	50
Ginger wine in casks, per gallon—same as still wines.	

Still wines in bottles, per case of 1 dozen quarts or 2 dozen half quarts...	1 60
Any excess found on such excess, per pint	05

Provided that any wines, ginger cordial or vermouth imported containing more than twenty-four per cent. of alcohol shall be forfeited to the United States; and provided further, that there shall be no constructive or other allowance for breakage, leakage or damage on wines, liquors, cordials or distilled spirits. Wines, cordials, brandy and other spirituous liquors imported in bottles or jugs shall be packed in packages containing not less than one dozen bottles or jugs in each package; and all such bottles or jugs shall pay an additional duty of three cents for each bottle or jug containing more than one pint, and two cents each on bottles or jugs containing one pint or less.

Ale, porter and beer, in bottles or jugs, per gallon	<i>New Rate.</i> 40c
Otherwise than bottles and jugs, per gallon	20c
Malt extract, fluid, in casks, per gallon	20c
In bottles or jugs, per gallon	40c
Solid or condensed	40 per cent. ad valorem

Cherry juice, Prune wine, Fruit juice, not more than 18 per cent. of alcohol, per gallon	60c
Containing more than 18 per cent. of alcohol, per gallon	60c
and \$2 07 per proof gallon on alcohol contained.	

Ginger Ale, ginger beer, lemonade, soda water and other similar beverages containing no alcohol, in plain green, moulded or pressed bottles, containing not more than $\frac{3}{4}$ of a pint, per dozen	18c
Containing more than $\frac{3}{4}$ of a pint each and not more than 1 $\frac{1}{2}$ pints, per dozen	20c
(No separate duty on bottles.)	

If imported in other than above glass bottles—containing more than 1 $\frac{1}{2}$ pints each, per gallon	50c
(and in addition duty on bottles.)	

Mineral waters, in pint bottles, per dozen	20c
1 pint to 1 quart, per dozen	30c
Over 1 quart, per gallon	24c

(In addition thereto duty shall be collected on all above bottles at rates chargeable if imported empty.)

334.

ENGLISH GIN.

To one hundred gallons of plain malt spirit add one pint of spirits of turpentine and seven pounds of Bay salt; mix and distil. The difference in the flavor of gin is produced by varying the proportion of turpentine, and occasionally adding a small quantity of juniper berries.

335.

FINING OF WINES.

If the racked wine is not clear it is fined by the addition of isinglass previously softened by soaking in a small quantity of wine. After the isinglass has been added, agitate the barrel and contents well, and then bung close (being careful to have it filled to the bung). Do not draw off for at least four weeks. Should a second fining be necessary, a little sweet milk may be added.

336.

FRENCH BRANDY.

To every gallon of pure spirits add one quart of the kind of brandy which you wish to imitate, two ounces of loaf sugar, half an ounce of sweet spirits of niter, and a few drops of tincture of catechu or oak bark to roughen the taste if desired; color with burnt sugar.

337.

FUSIL OIL.

HOW TO DESTROY ITS PRESENCE IN LIQUORS.

Add one-half pint of spirits of wine, one pound of unslacked lime and half a pound of powdered alum to forty gallons of whiskey. Stir thoroughly and then allow it to settle for a couple of days. This treatment precipitates the verdigris to the bottom; therefore the sediment should be handled with great caution.

338.

GIN.

To one hundred gallons of clear, rectified spirits add, after you have killed the oil well, one and a half ounces of the oil of English juniper, half an ounce of angelica essence, half an ounce of oil of bitter almonds, one-half ounce of the oil of coriander, and one-half ounce of the oil of caraway. Rummage this up and you have what rectifiers call strong gin. To make this up as it is called by the trade, add forty-five pounds of loaf sugar (dissolved). Rummage the whole well up together with four ounces of roche alum. Two ounces of salts of tartar may be added for finings.

GINGER BEER.

339.

Ten pounds of sugar, nine ounces of lemon juice, half a pound of honey, eleven ounces of bruised ginger root, nine gallons of water and three pints of yeast. Boil the ginger for a half hour in a gallon of water; then add the rest of the water and the other ingredients, and strain it when cold. Add the white of an egg beaten and half an ounce of essence of lemon. Let it stand four days, then bottle and it will keep many months.

GINGER WINE.

340.

Place one ounce of best bruised ginger root into a vessel containing one quart of ninety-five per cent alcohol, five grains of capsicum and one drachm of tartaric acid. Let it stand several days and then filter it. Now add one gallon of water in which one pound of crushed sugar has been boiled; mix when cold. To make the color, boil half an ounce of cochineal, three-quarter ounce of cream of tartar, half an ounce of saleratus and half an ounce of alum in a pint of water until you get a bright red color.

GOLDWASSER.

341.

Dissolve four drops of oil of cinnamon, twelve drops of anise seed, two drachms of mace, six drops of oil of citron and four drops of oil of roses in one quart of pure spirit. After standing eight or ten days, strain with pressure through a cloth bag, and then filter. Now add one quart of simple syrup and some bits of gold leaf. This is a valuable recipe.

HOLLAND GIN.

342.

Add two ounces of spirits of niter, four pounds of loaf sugar, one ounce oil of juniper and one-eighth ounce oil of caraway to forty gallons of neutral spirits. The juniper and caraway to be first cut in one quart of alcohol and allowed to stand for twenty-four hours before adding to the other ingredients.

343.

IRISH WHISKEY.

To forty gallons of proof spirits add sixty drops of creosote dissolved in one quart of alcohol, two ounces of acetic acid and one pound of loaf sugar. Let it stand two or three days before using.

344.

JAMAICA RUM.

To forty-five gallons of New England rum add five gallons of Jamaica rum, two ounces of butyric ether, half an ounce of oil of caraway cut with alcohol (ninety-five per cent) and color with sugar coloring.

Another good recipe: To thirty-six gallons of pure spirits add one gallon of Jamaica rum, three ounces of butyric ether, three ounces of acetic ether and half a gallon of sugar syrup. Mix the ethers and acid with the Jamaica rum and stir it well with the spirit. Color with burnt sugar.

345.

KOUMISS OR MILK CHAMPAGNE.

The Bashkirs are renowned for their skill in making Koumiss or fermented mares' milk, which is now extensively used by consumptives and persons afflicted by wasting and dyspeptic diseases. So easy is it of digestion, that invalids drink ten and fifteen champagne bottles full every day; while a Bashkir is able to overcome a couple of gallons at a sitting, and in an hour or two to be ready for more.

To insure good Koumiss it is essential that the mares be of the steppe breed and fed on steppe pasture. They are milked from four to six times a day, the foal being kept apart from the mother and allowed to suck only in the night-time. The mare will not give her milk, however, unless, at the time of milking, her foal is brought to her side, when such is the joy of the reunion, that after sundry acts of loving, smelling and kissing, the maternal feeling shows itself by her sometimes giving milk from both nipples at once. Milking is done by Bashkir women who, taking a position close to the hind legs of the mare, rest on one knee, and on the other support a pail directly under the udder, pulling at each nipple in turn, and receiving from three to four pints at a milking.

To make Koumiss the milk is beaten up in a churn (but not sufficiently to make butter), and by fermentation is converted after twenty-four hours into weak Koumiss, from which condition it passes after twelve hours more to a medium degree of strength; whilst strong Koumiss is produced by assiduous agitation of the milk for two or three days, when it is said to be slightly intoxicating.

A good imitation of this very high-priced luxury can be produced as follows: Into a champagne or syphon soda bottle place a cube of fresh compressed yeast (if this cannot be procured two ounces of fresh yeast will answer the purpose) and three tablespoonfuls of bar sugar. (This may appear to be too much sugar, but considerable sweetening is necessary to overcome the taste of the yeast). Fill the bottle with good, sweet milk, and if a champagne bottle is used, tie the cork securely. Lay the bottle down in a warm place for a day, then lay it in a cool place for four days before using. Should a syphon bottle be used, sufficient gas will generate in the bottle to cause the Koumiss to flow like soda.

MADEIRA WINE.

346.

To forty gallons of prepared cider add one-quarter pound of tartaric acid, four gallons of spirits and three pounds of loaf sugar. Let it stand for ten days, draw it off carefully, fine it down and then rack it again into another cask.

MEAD.

347.

The following is a good recipe for mead: On twenty pounds of honey pour five gallons of boiling water; boil, and remove the scum as it rises; add one ounce of best hops, and boil for ten minutes; then put the liquor into a tub to cool; when all but cold add a little yeast spread upon a slice of toasted bread; let it stand in a warm room. When fermentation is set up, put the mixture into a cask, and fill up from time to time as the yeast runs out of the bung-hole; when the fermentation is finished, bung it down, leaving a peg-hole which can afterwards be closed, and in less than a year it will be fit to bottle.

MONONGAHELA WHISKEY.

348.

To forty gallons of proof spirits add two ounces spirits of niter, four pounds of dried peaches, four pounds N. O. sugar, one quart of rye (burnt and ground like coffee), one-quarter pound allspice, half a pound of cinnamon and half a pound of cloves. Put in the ingredients, and after standing five days draw it off and strain.

349.

PALE BRANDY.

Pure spirits, one gallon; the kind of pale brandy you wish to imitate, one quart; loaf sugar, two ounces; sweet spirits of niter, one-half ounce; tincture of kino, two drachms; and two drops of tincture of catechu to roughen the taste if desired; color to suit and filter.

350.

PINEAPPLE RUM.

To fifty gallons of rum made by the fruit method add twenty-five pine-apples sliced, and eight pounds of white sugar. Let it stand two weeks before drawing off.

351.

PORT WINE.

Worked cider, forty-two gallons; good port wine, twelve gallons; good brandy, three gallons; pure spirits, six gallons; mix. Elderberries and sloes and the fruit of the black hawes make a fine purple color for wines, or use burnt sugar.

352.

ROOT BEER.

For each gallon of water to be used, take hops, burdock, yellow dock, sarsaparilla, dandelion and spikenard roots, bruised, of each one-half ounce; boil about twenty minutes and strain while hot; add eight or ten drops of oils of spruce and sassafras mixed in equal proportions; when cool enough not to scald your hand, put in two or three tablespoons of yeast; molasses, three-eighths of a pint, or white sugar, one-half pound, gives it about the right sweetness.

353.

RYE WHISKEY.

Bake, scorch and roast half a peck of dried peaches in an oven, but don't burn them. Bruise and put them in a woolen bag, and pour good whiskey over them several times. Add afterwards twelve drops of ammonia to each barrel, and, with ageing essence, you will have whiskey equal to old rye.

SANTA CRUZ OR ST. CROIX RUM.

354.

Add five gallons of Santa Cruz rum, five pounds of crushed sugar dissolved in four quarts of water, three ounces of butyric acid, and two ounces of acetic ether to fifty gallons of pure proof spirit. Color if necessary.

SCHIEDAM SCHNAPPS.

355.

(A FINE IMITATION.)

To twenty-five gallons of good Holland gin (five over proof), add fifteen pints of strained honey, two gallons of clear water, five pints of white sugar syrup, five pints spirit of nutmeg, five pints orange-flower water, seven quarts of pure water, one ounce of acetic ether, and eight drops oil of wintergreen dissolved with the ether. Mix well, and if fining be necessary use alum and salt of tartar.

SCOTCH WHISKEY.

356.

Into a large cask pour one-quarter of a barrel of Scotch whiskey, one-half of a barrel of pure spirit (ten over proof), three drops of creosote mixed with one ounce of acetic acid and one ounce of pelargonic ether. Irish whiskey may be made by substituting Irish for Scotch.

NOTE.—A few drops of creosote dissolved in one-quarter ounce of acetic ether and added to three gallons of Holland gin makes a fine imitation of Scotch whiskey.

SHERRY.

357.

To forty gallons of prepared cider, add two gallons of spirits, three pounds of raisins, six gallons of good sherry, and half an ounce of bitter almonds oil (dissolved in alcohol). Let it stand ten days, and draw it off carefully; fine it down, and again rack it into another cask.

358.

SPRUCE BEER.

Take of the essence of spruce half a pint; bruised pimento and ginger, of each four ounces; water, three gallons. Boil five or ten minutes, then strain and add eleven gallons of warm water, a pint of yeast, and six pints of molasses. Allow the mixture to ferment for twenty-four hours.

359.

STOMACH BITTERS.

(EQUAL TO HOSTETTER'S.)

European Gentian root, $1\frac{1}{2}$ ounces; orange peel, $2\frac{1}{2}$ ounces; cinnamon, $\frac{1}{2}$ ounce; anise seed, $\frac{1}{2}$ ounce; coriander seed, $\frac{1}{2}$ ounce; cardamom seed, $\frac{1}{2}$ ounce; unground Peruvian bark, $\frac{1}{2}$ ounce; gum kino, $\frac{1}{2}$ ounce; bruise all these articles, and put them into the best alcohol, 1 pint; let it stand a week, and pour off the clear tincture; then boil the dregs a few minutes in 1 quart of water, strain, and press out all the strength; now dissolve loaf sugar, 1 pound, in the hot liquid, adding 3 quarts cold water, and mix with spirit tincture first poured off, filter and bottle.

360.

STRONG BEER.

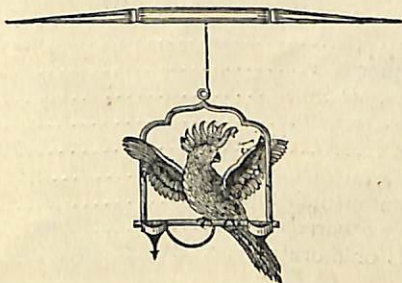

(A VALUABLE ENGLISH RECIPE.)

Malt, 1 peck; coarse brown sugar, 6 pounds; hops, 4 ounces; good yeast, 1 teacup; if you have not malt, take a little over 1 peck of barley (twice the amount of oats will do, but are not as good), and put it into an oven after the bread is drawn, or into a stove oven, and steam the moisture from them. Grind coarsely. Now pour upon the ground malt $3\frac{1}{2}$ gallons of water at 170 or 172 degrees of heat. The tub in which you scald the malt should have a false bottom, two or three inches from the real bottom; the false bottom should be bored full of gimlet holes, so as to act as a strainer to keep back the malt meal. When the water is poured on, stir them well, and let it stand 3 hours, and draw off by a faucet; put in 7 gallons more of water at 180 to 182 degrees; stir it well, and let it stand 2 hours, and draw it off; then put on a gallon or two of cold water, stir it well and draw it off. You should have about five or six gallons. Put the six pounds of coarse brown sugar in an equal amount of water; mix with the wort, and boil $1\frac{1}{2}$ to 2 hours with the hops. You should have eight gallons when boiled; when cooled to 80 degrees put in the yeast, and let it work 18 to 20 hours, covered with a sack; use sound iron-hooped kegs or porter bottles, bung or cork tight, and in two weeks it will be good sound beer, and will keep a long time; and for persons of a weak habit of body, and especially females, one glass of this with their meals is far better than tea or coffee, or all the ardent spirits in the universe. If more malt is used, not exceeding $\frac{1}{2}$ a bushel, the beer, of course, would have more spirit; but this strength is sufficient for the use of females or invalids.

SYRUPS.

361.

Syrups are made by using loaf or crushed sugar, 8 pounds; pure water, 1 gallon; gum arabic, 2 ounces; mix in a brass or copper kettle; boil until the gum is dissolved, then skim and strain through white flannel, after which add tartaric acid, $5\frac{1}{2}$ ounces dissolved in hot water; to flavor, use extract of lemon, orange, rose, pine-apple, peach, sarsaparilla, strawberry, etc., $\frac{1}{2}$ ounce to each bottle, or to your taste.

TAXES ON LIQUORS, ETC.

THE FOLLOWING ARE THE ANNUAL SPECIAL TAXES

NOW IMPOSED BY LAW, TO WIT:

Rectifiers of less than 500 barrels a year.....	\$100 00
Rectifiers of 500 barrels or more a year.....	200 00
Dealers, retail liquor.....	25 00
Dealers, wholesale liquor.....	100 00
Dealers in malt liquors, wholesale.....	50 00
Dealers in malt liquors, retail.....	20 00
Manufacturers of stills.....	50 00
and for each still manufactured.....	20 00
and for each worm manufactured.....	20 00
Brewers of less than 500 barrels a year.....	50 00
Brewers of 500 barrels or more a year.....	100 00

Distilled Spirits, tax per proof gallon.....	\$1 10
(on spirits below proof tax is on wine gallons)	
Fermented liquors, per barrel, not over 31 gals.....	1 85
Bottled wine, on each pint or less,.....	01
On each bottle over one pint,.....	02
On each demijohn holding less than one gallon,.....	02

INSTRUCTIONS TO SPECIAL TAX PAYERS.

I.

The special-tax year commences on the first day of July and ends on the 30th day of June succeeding.

II.

Applicants for a special tax for a fractional part of a year must calculate from the first day of the month in which they commence business to the end of the special-tax year. Any person doing business subject to special tax is liable to criminal prosecution for failure to obtain and post a special tax stamp. In addition to the criminal liability for failure to pay the tax before beginning business, 50 per cent. is added to the tax unless paid during the calendar month in which business is begun.

III.

Retail dealers in malt liquors cannot retail spirituous liquors or wines without paying special tax as retail liquor dealers.

IV.

Retail liquor dealers cannot, as such, sell five gallons of the same kind of liquors to one person at any one time. Any person desiring to sell in quantities of five or more gallons must make this return and pay the special tax as a wholesale liquor dealer. The word "gallon" here used means "wine-gallon."

V.

Rectifiers or brewers who have paid special tax as "rectifiers or brewers of less than 500 barrels," and who, during the same special-tax year, desire to increase their product, should make application hereon for a new stamp of the denomination of \$200 in the case of a rectifier, or \$100 in the case of a brewer. On obtaining this new stamp the rectifier or brewer may apply to the Commissioner of Internal Revenue, under section 3426, Revised Statutes, for the repayment to him of the value of the stamp first issued, less five per cent. deduction therefrom.

VI.

Special-tax stamps are not transferrable from one dealer to another. When a new member is added to a firm paying special tax, a new stamp will be required. There is no rebate for the unexpired term of the old stamp.

VII.

Special-tax stamps may be transferred from place to place for use only by the person who paid the tax. Application for transfer must be made to the Collector of Internal Revenue, accompanied by the special tax stamp to be transferred.

TAXES ON LIQUORS, ETC.

VIII.

Special-tax stamps will be transmitted by mail only on receipt, from the person or firm ordering the same, of specific directions so to do. If it is desired that they be transmitted by *registered* mail, *eight cents* additional should accompany the application.

 POSTAGE STAMPS will not be received in payment of special taxes.

Every person or firm liable to special tax must, before commencing business, file, and thereafter, while thus liable, not later than the 30th day of June of each year, again file with the Collector or Deputy Collector a sworn return (in legal form), and pay to such officer the amount of the tax, when he will be furnished with a *Special-tax stamp*, which must at all times be conspicuously displayed in his, or their, place of business. For failure to make the return as above stated, the Commissioner of Internal Revenue is required by law (section 3176, Revised Statutes) to assess a penalty of fifty per centum of the entire amount of the special tax. The failure to procure a special-tax stamp also renders the delinquent liable to criminal prosecution. Such prosecution is not usually instituted where payment is made within the month in which liability accrues; but such leniency is at the discretion of the officers of the court.

TO CORRECT SOURNESS IN WINE. 363.

Put in a bag the root of a wild horseradish cut in bits. Let it down in the wine and leave it there two days; take it out and put in a fresh root, repeating the same until the desideratum is acquired. A bag of wheat will have the same effect where the wine is but slightly affected.

TO CURE ROPY BEER. 364.

Put a handful of flour, and the same quantity of hops, with a little powdered alum, into the beer and rummage it well

TO GIVE BEER THE APPEARANCE OF AGE. 365.

Add a few handfuls of pickled cucumbers and Seville oranges, both chopped up. This will make malt liquor appear six months older than it really is.

TO NEUTRALIZE WHISKEY. 366.

To forty gallons of whiskey add one and a half pounds of unslacked lime, three-quarters of a pound of alum and half a pint of spirits of niter. Let it stand for a day or two and draw it off.

TO REDUCE HOLLAND GIN. 367.

To twenty-five gallons of pure Holland gin add twenty-five gallons of pure French spirit and half a gallon of pure sugar syrup. Mix thoroughly.

TO REMOVE ROPINESS FROM WINE. 368.

Add a little catechu or a few bruised mountain ash berries.

TO RESTORE FLAT WINE. 369.

To every hundred gallons add four or five pounds of white sugar, honey or raisins, and bung close. A little spirits may also be added.

WAX PUTTY FOR LEAKY BUNGS. 370.

Spirits of turpentine, two pounds; tallow, four pounds; solid turpentine, twelve pounds. Melt the wax and solid turpentine together over a slow fire, and then add the tallow. When melted, remove to a cool place and stir in the spirits of turpentine and allow it to cool.

VALUABLE SUGGESTIONS

Many absinthe drinkers of late have become possessed of a novel and scientific notion through the publication of a series of articles, which have appeared in a certain medical journal, claiming that, before drinking absinthe in any form, great pains should be taken to carefully pour off the top of the liquid or allow it to flow off while dripping, so that the thin scum which always floats to the top of absinthe will not be partaken of. This is said to be the only deleterious property of absinthe; and should a small quantity of this floating substance be placed in contact with any abrasion of the cuticle, serious inflammation would be the consequence, proving beyond a doubt its poisonous nature.

Another new wrinkle with absinthe drinkers is termed an Egg Suisse. It is highly spoken of as a morning eye-opener, and is made the same as an ordinary Suisse, with the white of an egg well shaken with the absinthe, orgeat and ice. When the syphon is turned onto this drink, a thick foam immediately collects on top of the beverage. The mouth of the syphon should then be placed below the rim of the glass and turned on again, which will cause this head to raise high above the liquid (*à la Mountaineer*) if the mixture is well frozen and the syphon cold. The poison spoken of in the preceding suggestion is said to adhere to the frozen egg, thereby obviating the necessity of pouring off the surface of the drink, as the beverage itself can be partaken of without quaffing the unhealthy foam.

In making a cocktail of any liquor, always strive to serve the beverage as cold as possible. Some bartenders freeze the glass in which the drink is to be served by filling it with fine ice before commencing to mix the drink. As soon as the cocktail is prepared, they throw the fine ice out of the serving glass and immediately strain the beverage from the mixer into the now frozen glass. This is a very nice and tasty way to do, but of course all this extra labor requires time, and is therefore impracticable during a rush of business.

Never try to make fancy cocktails without a special order, as they should be as plain as possible for the average lover of this popular beverage.

Do not serve a frosted glass to a gentleman who wears a mustache, as the sugar adheres to that appendage and causes great inconvenience.

The idea of making any liquor into a cocktail was conceived only for the purpose of removing the sharp, raw taste peculiar to all plain liquors; therefore it is not necessary to use a combination of cordials, essences, absinthe or lime juice as some "bar-creatures" do; but by adhering strictly to the herein contained directions you will be enabled to serve these famous American decoctions in as fine style as the highest salaried mixologist in the land.

VALUABLE SUGGESTIONS.

Some of my recipes for the manufacture of cocktails order the dispenser to twist a piece of lemon peel into the glass in which the drink is to be served ; but in some establishments this is forbidden, the bartenders being ordered to twist and drop the lemon peel into the mixing glass and strain the peel with the ice when putting the drink into the serving glass. This is merely a matter of form, however, as the flavor is the same in both cases.

In place of mixing sugar and water every time a cocktail is ordered, a nice way to do is to dissolve a quantity of loaf sugar in a large vessel of hot water ; strain, bottle and use, when needed for cocktails or toddies, from a bitter bottle. A few dashes of this toddy water, or whiskey gum, as it is called, is sufficient for a cocktail, and the beverage is clearer and better flavored thereby.

In making lemonades, whiskey, brandy, gin or any kind of cocktails, whiskey, brandy, white wine or imperial punches, juleps or any beverage containing any effervescent liquid, always *mix with a spoon*. *A shaker should be used only in the mixing of frozen absinthes, milk punches, egg noggs, claret punches, fizzes, cobbles or drinks that cannot be dissolved with a spoon, or beverages that must be frozen.*

In mixing hot drinks always use the thinnest of glassware of uniform thickness, and place a spoon in the glass before pouring in the hot water ; then you will never be troubled with breakage.

Rinse out your glass with boiling water before commencing to make a hot drink. This enables one to serve the beverage much hotter.

Should you ever have occasion to *cool a hot drink*, never put a piece of ice in it, as this impairs the flavor. By pouring the beverage into a clean, cool glass the desired temperature will be attained in a few moments.

Before pouring liquor into a hot drink, always see that the sugar is thoroughly dissolved, because it is a difficult matter to dissolve it afterwards.

Never set a *hot drink on a polished bar top* without a saucer or a clean napkin under it, as it will surely leave a bad mark.

In making *drinks requiring a combination of sugar and lime or lemon juice*, no strict rule regarding the quantity of either sour or sweet can be adhered to, as no two tastes are exactly alike, and the quantity of juice in different lemons and limes varies. Therefore, a bartender must necessarily use his own judgment regarding the blending of these indispensable ingredients. The great trick in making punches, sours, lemonades, and all drinks necessitating the use of a mixture of sour and sweet, is to blend them so that the taste of one will be no more perceptible than the flavor of the other. This can only be acquired by practice, and is one of the most important secrets in barkeeping.

Some recipes in this book order the use of *lime juice*, and some call for *lemon juice*. Long experience has taught me that the juice of one is as good as the juice of the other ; but in using *rind or peel* for a flavor, lemon peel is the proper thing, as lime-skin has a rank, bitter taste, and is therefore worthless.

VALUABLE SUGGESTIONS.

When helping a customer to a still wine of any description, vermouth, a liqueur or any plain drink with which you do not wish to serve ice, a very nice and tasty way to cool the beverage is to hold a piece of ice over the serving glass with a pair of ice tongs, and pour the drink over it.

For the benefit of the novice, I will state that a *jigger* (which is ordered used in many of my recipes) is a little silver measure shaped like and having the same capacity as a sherry glass. It is supposed to hold an average drink of any liquor, and I would advise any inexperienced person to use either a jigger or a sherry glass until they accustom themselves to measuring correctly by practice with the eye.

Always use thin glassware if you wish to have your drinks appreciated; for there is an old adage known to all club-men and lovers of good things that "A drink of beer tastes as good out of a thin glass as champagne does out of a cup."

In drawing a cork from a bottle of any effervescent liquid, always hold the bottle in an oblique position, as near horizontal as possible, without getting the mouth of the bottle below the surface line of the contents. Hold the bottle in this position for a few moments before standing it up, and no waste can possibly occur. The principle of this little trick is that the bubbles formed by the sudden contact of the heavy oxygen with the lighter gas contained in the bottle rise perpendicularly; therefore, when the bottle is held in a vertical position, the first-formed globules of air containing quantities of the valuable liquid are forced through the neck of the bottle by the successive formation of others, causing loss, damage and inconvenience; but, when the bottle is held obliquely, the bubbles, still true to the same law of nature, continue the same upward course; but, instead of escaping through the opening, they are arrested by the slope of the bottle, and the gas which must necessarily escape through the only vent to relieve this pressure is not in the form of bubbles; therefore the desideratum is acquired.

In opening champagne the preceding hint is invaluable, although a corkscrew is never used for this purpose.

The proper way of opening a bottle of effervescent wine is to carefully remove the capsule covering the cork, break with a twist of a wine opener, or cut with a pair of wire nippers, the wire which holds the cork, wipe the neck of the bottle and the cork with a napkin so that no dirt can drop into the glass which you are about to serve the wine in, and keep the thumb of the left hand firmly over the cork during these preparations so that no accident can possibly happen; then firmly grasp the bottom of the bottle with the right hand, and hold the cork fast between the thumb and forefinger of the left hand, twist the bottle a few times backward and forward so as to loosen the cork, and then allow the pressure of the gas within to do the rest, taking pains to not let it do too much, and never allow any noise to be heard as the cork leaves the bottle. By holding the bottle in the position spoken of in the preceding suggestion, no danger of an overflow need be feared.

VALUABLE SUGGESTIONS.

In opening a bottle of any wine or liquor of any description, always strive to *jar the contents as little as possible* so that, should there be any sediment in the bottle, it will not be served with the drink, but will remain at the bottom. A bottle of old Burgundy or fine claret is unfit for use after having been shaken just before serving; and any connoisseur's appetite for a good drink of wine or liquor is always more or less impaired by being compelled to drink any beverage which has been poured from an almost empty bottle of any wine or liquor.

The icing of wines is of great importance; but how few bartenders pay attention to this subject? Clarets and Burgundies should never be cooled in any manner, but should be kept and drank at a temperature of about sixty degrees Fahrenheit. Hocks, Reislings and Sauternes can be kept at any temperature without injury, but it is advisable to keep them cool. Ice may be served in the glass with these wines, and the flavor will not be impaired thereby; but the flavor of champagne is always injured by serving in this manner. The proper way to treat effervescent wines is to ice the bottle well before uncorking. Cognacs should always be kept at an even temperature, as extreme heat or cold is very injurious to them; but whiskies of all kinds are much more palatable when iced, and the liquor is not impaired thereby. Malt liquors of all kinds should be served at a temperature as near fifty degrees Fahrenheit as possible.

WM. T. (COCKTAIL) BOOTHBY'S TEN COMMANDMENTS.

I.

Always be on time to relieve the other watch. It is a good plan to make a practice of arriving a few minutes early so as to arrange your toilet and step to your station on time.

II.

See that your finger nails are always clean and your person presents a tidy appearance.

III.

Always appear pleasant and obliging under all circumstances.

IV.

Avoid conversations of a religious or political nature.

V.

When going off watch always dry and polish all the glassware and tools which you have used on your watch, and see that everything is in its proper place, so that your relief can work to advantage as soon as he arrives at his post.

VI.

Sell all the liquor you can, but use as little as possible yourself.

TEN COMMANDMENTS.

VII.

If you are troubled with sore feet, bathe them regularly. Avoid patched or ragged hosiery, and wear a comfortable shoe with a heavy sole. Light soles, low-cut shoes or slippers should never be worn behind a bar.

VIII.

Keep the floor behind the bar as dry as possible. It not only looks better, but you will find your health greatly improved by following this rule. Many bartenders contract rheumatism, neuralgia and many other serious complaints through carelessness in this respect.

IX.

After using a bottle or tool always replace it before doing anything else. Make this a rule that should never be broken; and, when you are rushed with business, you will never be compelled to hunt for this or that, but you will always know just where it is.

X.

After a party has finished drinking, remove the glassware from the bar as soon as possible, and dry and polish the bar top immediately, never allowing a particle of moisture to remain. This is a very important rule.

TIPS.

Aim to please your patron by studying his tastes.

Polite inquiry as to how strangers like their beverages served will never offend.

A dozen different beers are made in Borneo.

Mead was made from honey and water fermented.

Over a hundred kinds of wine are made in Australia.

The best Champagne corks cost seven cents each.

Mead is the oldest alcoholic drink mentioned in history.

In Sweden an appetizer is made from common fennel.

Bacon advised the use of cider and perry on sea voyages.

The Egyptians attributed the invention of beer to *Osiris*.

The Assyrians had seventy-two different kinds of wine.

Over three hundred different drinks are known as purely American in use.

Champagne grapes are little larger than red currants.

Catherine de Medicis introduced the use of liquors in France.

Wine skins made of the hides of animals are used in the rural districts of Spain.

Hermetically sealed wine flasks have been found in Pompeii.

The word *brandy* is from the Dutch *Brandwijn*—burnt wine.

Port wine is famous for its gout producing properties.

Ancient wines were black, red, straw color, white or tawny brown.

Brandy was first used medicinally and miraculous cures were ascribed to its employment.

Eau is double distilled kummel made into a liqueur.

Kummel is corn brandy sweetened and flavored with coriander and caraway seeds.

Cater to people with money and overlook dead ones and has beens.

Wines and liquors are expensive luxuries. A man who is broke should not have such luxurious habits.

TIPS.

Colored ratifias are made of cherries or almost any other fruit seasoned with cinnamon, mace or other spices according to taste.

Absinthe is an alcoholate composed of anise, coriander and fennel, flavored with wormwood and colored with indigo and sulphate of copper.

The favorite drink in Nubia is made from fermented dhurra bread. It is called ombulbul, because it makes the drinker sing like the nightingale.

Although all ordinary whiskies are made from grain, good whiskies have been made from molasses, beet root, potatoes and many other substances.

The word punch is from the Sanscrit Pancha or the Persian Punj which denotes the usual number of ingredients of which it is composed, viz: five.

Germans and Saxons used to drink their wine and beer from horns unprovided with handles or feet so that the horn had to be emptied by each drinker.

"Pledging a health" is a Saxon momento. The drinking horn had to be raised in both hands and the drinker's pledge stood beside him with sword drawn in order that no one should stab him while drinking.

When drinking healths as many cups were drunk as there were letters in the name of the person complimented.

French statistics show that France exports four times as much wine as the vineyards of the country produce.

American statistics show that more California wines and brandies are shipped to French ports than to all other shipping points combined.

TIPS.

These undisputed facts show that the American people are buying California wines under French labels every day, proving conclusively the truth of P. T. Barnum's old saying: The American people like to humbugged.

The discovery of champagne is said to be due to a Benedictine monk named Perigon, who in 1668 was made cellarer. In pursuing the duties of his position he hit upon the idea of "marrying" the different wines produced in the vineyard; one he noted had fragrance, another imparted generosity and the blackest were found to produce a white wine that kept good instead of turning yellow, as that made from white grapes. The white or gray wines of champagne became famous, and the wine from his district, Hautviller, the most famous of all. Perigon also discovered that the old stopper of flax dipped in oil could be replaced with cork. He finally evolved the effervescing wine that was far more pleasant than the old style still wine. The King gave the seal of royal approval to the new discovery. Le Marquis de Sillery at a supper introduced the wine into the court circle. The flower wreathed bottles which, at a given signal, a dozen blooming damsels, draped in the guise of Bacchanals, placed upon the table, were hailed with rapture. Thenceforth sparkling wines were an indispensable adjunct to all the court suppers of the period.

The Mint Julep got its name from a Southern gentlemen who was a great admirer of Shakespeare's works, and who upon an occasion of having tried "*grass in his likker*" was so moved by the result that there came to his mind a vision of his favorite heroine, the daughter of Lady Capulet and the "sweet, sweetening" of of Romeo; thereupon he enthusiastically named his beverage "Mint Juliet," a term which later bibbers have corrupted into Mint Julip.

Unfermented wine may be kept as long as desired by merely pouring a little olive oil in at the top of the bottle. This effectually excludes the air and none can work down into the wine to ferment it. At the same time any air that was in the juice finds its way up through the oil. This same means may be employed to keep any kind of wine.

In order to prevent the oil from flowing into the glass when the bottle is put in use, is to sop up the oil with a little cotton when the bottle is uncorked. The cotton absorbs it little by little. Some of the best Italian wines are bottled in this manner and shipped all over the world with the bottles standing up.

TIPS.

A man with money don't like to patronize a house where he is sure to meet a lot of spongers.

Perry and dried apples are much used in the adulteration of champagne.

The Chinese have a barley beer which is sweet and drunk warm.

Spruce beer is made by boiling the shoots, bark and cones of the fir.

A barkeeper with dirty fingernails is a thing of horror.

The Saxons made beer from beets, turnips and the common heather.

Persimmon beer was the favorite drink of the North American Indians.

Palm wine is the favorite beverage in all countries where the palm is a native.

Indians made beer from maize in South America before the time of Columbus.

Syrup of rose is any white wine sweetened and flavored with rose essence.

The loss of champagne by bursting bottles sometimes amounts to twenty-five per cent.

The smoky flavor of Scotch whiskey is due to the use of peat in the manufacture.

Make every effort to become familiar with the peculiarities of each customer.

Vermouth is composed of white wine, angelica, absinthe and aromatic herbs.

The South Sea Islanders make an intoxicating drink from corn and decayed fish.

Kirschwasser is a product of the Black Forest and is distilled from cherries.

Beers made from maize or barley are manufactured by almost every native African people.

The peculiar flavor of Bavarian beer is due to the use of pine tops in the manufacture.

Effervescing waters were first made on a large scale by J. Schweepe of Geneva in 1789.

The natives of Siberia prepare a singularly intoxicating beverage from the common mushroom.

The wine list of Sardanapolis has been found on a terra cotta tablet and contains ten kinds.

Wine was first cultivated in America in 1564 by natives of Mexico.

The wine of Sheraz in Persia is said to be equal to the best burgundy and champagne.

The modern health-drinking arose from the ancient custom of dedicating cups of wine to divinities.

TIPS.

The liquors of two centuries ago were without exception invented and made in monasteries.

Schiedam Gin is made from rye, buckwheat, damaged rice, potato spirit, or any other handy materials.

The difference between brandy and whiskey is the fact that the former is a fruit and the latter a grain product.

Intoxicating liquors have been made from the sap of the birch, the willow, the poplar and the sycamore.

In the Southern Provinces of Russia, a drink resembling brandy is obtained by distilling the juice of the watermelon.

In making champagne the grapes are squeezed six times, each pressure making wine of a different quality.

Hippocrates mentions wine made of medlars, mulberries, asparagus, origanum, thyme and many other herbs.

Napoleon drank Clos-Vougeot and whenever a French regiment marches past that vineyard it always halts and presents arms.

The Swiss "Wine of Blood" is so called from the battle of Birs fought on the vineyard, 1,600 Swiss opposed 30,000 French and were all killed but sixteen.

Champagne owes its quality to the soil, a mixture of chalk, silica, light clay and oxide of iron and to great care and delicate manipulation in manufacture.

Alcohol has never been reduced to the solid state but becomes viscid at very low temperature.

Pure spirit of wine or hydrated alcohol was first obtained by Abucasis, a Moor, in 1130 A. D.

Alcohol distilled from wine was first mentioned as Aqua Vitae (Water of Life) by Villeneuve who died in 1313.

In the wine districts of France, Spain and Italy, grapes are still trodden with the bare feet under the idea that the wine is better.

Rum improves with age. In 1865 a quantity of rum known to be 140 years old sold at \$15.00 per bottle. It is made from the refuse of sugar. The best comes from the West Indies.
