Absinthe.

Use a small bar glass.

1 wine-glass absinthe.

Allow water to slowly drop into the glass until full.

Never use absinthe in any preparation unless ordered by the customer. And as there are several methods of mixing absinthe it is proper to enquire which style the customer desires.

Absinthe. (American Style of Mixing.)

Use a large bar glass.

$\frac{3}{4}$ glass of fine ice.

5 or 6 dashes gum syrup.

1 pony absinthe.

3 wine-glasses of water.

Shake the ingredients until the outside of the shaker is covered with ice. Strain into a large bar glass. This is sometimes called Frappé Absinthe.

Absinthe. (French.)

Use a large bar glass.

1 pony glass absinthe.

Fill the bowl of your absinthe glass (which has a hole in the center) with fine ice and the balance with water.

Then elevate the bowl and let the contents drip into the glass containing the absinthe, until the color shows a sufficiency.

Pour into a large bar glass. Serve.

Absinthe. (Italian Method.)

Use a large bar glass.

1 pony absinthe.

2 or 3 pieces of ice.

2 or 3 dashes Maraschino.

$\frac{1}{2}$ pony of anisette.

Pour ice water into the glass;
slowly stir with a spoon and serve.

Absinthe Cocktail.

Use a large bar glass.

Fill tumbler with ice.

3 or 4 dashes gum syrup.

1 dash Angostura bitters.

1 dash anisette.

$\frac{2}{3}$ " absinthe.

Stir well, strain into a fancy cocktail glass. Twist a piece of lemon peel on top, serve.

Ale Sangaree.

Use an ale glass.

1 tea-spoon powdered sugar.

Fill up with ale, grate nutmeg on top, and serve.

Amaranth Cocktail.

Make a regular cocktail and strain into a whisky glass. Fill up with Seltzer or Vichy water. Dip a small spoon in fine sugar, and with what sugar remains upon the spoon, stir up the cocktail, so as to cause it to ferment; have the spoon a little wet, when dipping in the sugar.

Apple Jack Cocktail.

Use a large bar glass.

2 or 3 dashes gum syrup.

2 or 3 dashes raspberry syrup.

1 wine glass apple-jack.

Fill glass half full of fine ice.

Shake well; strain into a cocktail glass; twist a bit of lemon peel in it, and serve.

1 wine-glass apple-jack.

Fill balance with hot water.

Mix well, using a spoon, grate a little nutmeg on top. Serve, leaving the spoon in the glass.

“Arf and Arf,” or Black and Tan.

Use a large ale glass.

This is a common English drink and means half porter and half ale, but in this country we use half old ale and half new.

It is always best to ask the customer how he desires it.

Arrack Punch.

Use a bar glass.

1 table-spoon sugar dissolved in a little water.

1 or 2 dashes lemon juice.

1 wine-glass of Batavia arrack.

Use a hot water glass.

$\frac{1}{4}$ tea-spoonful of the best beef extract.

Fill the glass with hot water.

Stir up well with a spoon, place pepper, salt and celery salt handy, and if the customer should require it, put in a small pony of sherry wine or brandy.

Beverages from Fruits.

Currant jelly water (or any acid jelly—cranberry, plum, etc.

If the jelly is soft, a tea-spoonful is dissolved in a goblet of fresh cold water and sweetened to taste.

If the jelly is hard, it will have to be added to boiling water to become dissolved. To be drank cold.

The fresh fruits are, of course, to be preferred.

There is nothing more refreshing than currant water made from fresh currants.

This can be prepared by allowing a pint of water to a pint of currants (freed from stems) and a table-spoonful of sugar.

Heat these slowly in a porcelain or granitized iron kettle until it boils, then let it simmer for five minutes. Strain it through a cloth, let cool, and sweeten again to taste. It can be diluted in water.

If strawberries, raspberries, black raspberries, or blackberries are used prepare them in the same manner, excepting that for each quart of berries a pint of water with a table-spoonful of sugar should be used.

- 5 good-sized bitter oranges.
- Roast the oranges until they are of a pale brown color ; lay them in a tureen, and cover them with the sugar, adding 3 glasses of Port wine ; cover the tureen and let it stand until the next day. When required for use, place the tureen in a pan of boiling water, press the oranges with a spoon, and run the juice through a sieve. Boil the remainder of the Port wine ; add the strained juice, and serve warm in glasses.

Blue Blazer.

$\frac{1}{2}$ table-spoon sugar, dissolved in a little hot water.

1 wine-glass Scotch whisky.

Set the liquor on fire, and, while blazing, pour 3 or 4 times from one mug into another. This will give the appearance of a stream of liquid fire.

Twist a piece of lemon peel on top with a little grated nutmeg, and serve.

As this preparation requires skill it is quite requisite that the novice should practice with cold water at first.

Bottle of Cocktail.

1 qt. of good old whisky.

1 pony glass of Curaçoa (red).

1 wine-glass gum syrup.

$\frac{3}{4}$ pony glass of Angostura bitters.

Wine or Lemon Whey.

When a pint of milk is brought just to boil, pour in a gill of sherry wine. Let it again come to a boil. When the whey separates, strain and sweeten to taste.

Or the whey can be made in the same manner with lemon-juice (free from seeds), using the juice of half a lemon instead of wine, a table-spoonful being quite enough for a pint of milk.

In an alimentary point of view, whey is almost of no value. It is advantageous as a drink in febrile diseases, and is a good means of administering wines in small quantities.

It may be drank either cold or warm.

It possesses sudorific and diuretic properties.
